### **PGI 201.109 Statutory acquisition-related dollar thresholds – adjustment for inflation.**

Statutory acquisition-related dollar thresholds are reviewed every 5 years to calculate adjustment for inflation, as required by Section 807 of the National Defense Authorization Act for Fiscal Year 2005 (Public Law 108-375). The matrix showing the most recent escalation adjustments of statutory acquisition-related dollar thresholds in the DFARS is available [here](#).

### **PGI 201.170 Peer Reviews.**

The tenets of the DoD-wide architecture for the acquisition of services along with the associated review criteria are available [here](#). These matrices are to be used when conducting preaward and postaward peer reviews on acquisitions for services. See [PGI 237.102-76](#), Review criteria for the acquisition of services.

#### **PGI 201.170-1 Objective of Peer Reviews.**

The objectives of Peer Reviews are to—

- (a) Ensure that DoD contracting officers are implementing policy and regulations in a consistent and appropriate manner;
- (b) Continue to improve the quality of contracting processes throughout DoD; and
- (c) Facilitate cross-sharing of best practices and lessons learned throughout DoD Defense Procurement and Acquisition Policy maintains a database of Peer Review

recommendations, lessons learned, and best practices that is available at:  
[http://www.acq.osd.mil/dpap/cpic/cp/peer\\_reviews.html](http://www.acq.osd.mil/dpap/cpic/cp/peer_reviews.html).

### **PGI 201.170-2 Pre-award Peer Reviews.**

(a) Pre-award Peer Reviews for competitive acquisitions shall be conducted prior to each of the following three phases of the acquisition:

- (1) Issuance of the solicitation.
- (2) Request for final proposal revisions (if applicable).
- (3) Contract award.

(b) Pre-award Peer Reviews for non-competitive acquisitions shall be conducted prior to each of the following two phases of the acquisition:

- (1) Negotiation.
- (2) Contract award.

### **PGI 201.170-3 Post-award Peer Reviews of service contracts.**

(a) If the base period of performance is greater than one year, the first post-award Peer Review should take place at the mid-point of the base period of performance. If the base period of performance is one year or less, the post-award Peer Review should occur prior to exercise of the first option year. Post-award Peer Reviews should occur prior to every option period thereafter.

(b) Post-award Peer Reviews shall be focused on—

- (1) The adequacy of competition;
- (2) An assessment of actual contract performance; and
- (3) The adequacy of Government surveillance of contract performance.

### **PGI 201.170-4 Administration of Peer Reviews.**

(a) The results and recommendations that are products of Peer Reviews are intended to be advisory in nature; however, in the event the Peer Review report includes a recommendation that is identified as “significant” and the contracting officer does not intend to follow that recommendation, the senior procurement official of the contracting activity for the reviewed organization must be made aware of this fact before action is taken (or

inaction, as applicable) that is contrary to the recommendation. Reviews will be conducted in a manner that preserves the authority, judgment, and discretion of the contracting officer and the senior officials of the acquiring activity.

(b) Peer Review teams will be comprised of senior contracting officials and attorneys from throughout DoD. A senior official designated by the OSD Office of Small Business Programs will participate as a team member on Peer Reviews of services acquisitions. Teams will include civilian employees or military personnel external to the department, agency, or component that is the subject of the Peer Review.

(c) Generally, each review will be conducted at the location of the executing contracting organization.

(d) A list of the documents that must be made available to the review team, along with the specific elements the team will examine, is provided at the end of this PGI section.

(e) The review team observations and recommendations will be communicated to the contracting officer and the senior procurement official immediately upon completion of a review.

(f) The contracting officer shall document the disposition of all Peer Review recommendations (i.e., state whether the recommendation will be followed and, if not, why not) as a signed memorandum for the record in the applicable contract file. This memorandum must be executed prior to the next phase Peer Review or prior to contract award for Phase 3 reviews. For post-award Peer Reviews of services acquisitions, the memorandum must be executed prior to the next option exercise. The contracting officer shall provide a copy of the memorandum to: Deputy Director, Defense Procurement and Acquisition Policy (Contract Policy and International Contracting), 3060 Defense Pentagon, Washington, DC 20301-3060.

<p style="text-align: center;"><b>Pre-award Peer Reviews Required Documents and Elements</b></p>
--

**Required Documents:** At a minimum, Peer Review teams shall have access to the following documents (as applicable):

1. The requirements document, to include the Acquisition Decision Memorandum;
2. The acquisition strategy, or acquisition plan;
3. The source selection plan;
4. The initial Request for Proposals (RFP) and all amendments to include what, if any, RFP requirements (technical and contractual) were changed and why;

---

5. The Source Selection Evaluation Board (SSEB) analysis and findings to ensure the evaluation of offers was consistent with the Source Selection Plan and RFP criteria;
6. Any meeting minutes memorializing discussions between the Government and offerors;
7. All evaluation notices generated as a result of deficiencies in the offerors' proposals as well as the offerors' responses to those evaluation notices;
8. All minutes memorializing the conduct of Source Selection Advisory Council (SSAC) deliberations held to date;
9. The offerors' responses to the request for Final Proposal Revision;
10. The final SSAC deliberations;
11. The final SSA determination and source selection decision;
12. Award/incentive fee arrangements, documentation of any required HCA D&Fs regarding non-availability of objective criteria;
13. Justification and Approval for use of non-competitive procedures; and
14. Documentation of pre-negotiation objectives, cost/price negotiation and the assessment of contractor risk in determining profit or fee.

### **Elements to be addressed:**

1. The process was well understood by both Government and Industry;
2. Source Selection was carried out in accordance with the Source Selection Plan and RFP;
3. The SSEB evaluation was clearly documented;
4. The SSAC advisory panel recommendation was clearly documented;
5. The SSA decision was clearly derived from the conduct of the source selection process;
6. All source selection documentation is consistent with the Section M evaluation criteria; and
7. The business arrangement.

<b>Post-award Peer Reviews Required Documents and Elements</b>

**Required Documents:** At a minimum, Peer Review teams shall have access to the following documents (as applicable):

1. The requirements document;
2. The business arrangement, including business case analysis;
3. Market research documentation;
4. The business clearance, including documentation of cost/price negotiation and the assessment of contractor risk in determining profit or fee.
5. Contractor surveillance documentation to include metrics, quality assurance surveillance plans; and

---

6. The contract and modifications thereof.

### **Elements to be addressed, at a minimum, in every post-award review:**

1. Contract performance in terms of cost, schedule, and requirements;
2. Use of contracting mechanisms, including the use of competition, the contract structure and type, the definition of contract requirements, cost or pricing methods, the award and negotiation of task orders, and management and oversight mechanisms;
3. Contractor's use, management, and oversight of subcontractors;
4. Staffing of contract management and oversight functions; and
5. Extent of any pass-throughs, and excessive pass-through charges by the contractor (as defined in section 852 of the National Defense Authorization Act for Fiscal Year 2007, Public Law 109-364).
6. Steps taken to mitigate the risk that, as implemented and administered, non-personal services contracts may become de facto personal services contracts.

### **Elements to be addressed in post-award reviews of contracts under which one contractor provides oversight for services performed by other contractors:**

1. Extent of the DoD component's reliance on the contractor to perform acquisition functions closely associated with inherently governmental functions as defined in 10 U.S.C. 2383(b)(3); and
2. The financial interest of any prime contractor performing acquisition functions described in paragraph (1) in any contract or subcontract with regard to which the contractor provided advice or recommendations to the agency.

## PGI 207—Acquisition Planning

---

(Revised February 15, 2019)

### PGI 207.1—ACQUISITION PLANS

#### PGI 207.103 Agency-head responsibilities.

(h) Submit acquisition plans for procurement of conventional ammunition to—

Program Executive Officer, Ammunition  
ATTN: SFAE-AMO  
Building 171  
Picatinny Arsenal, NJ 07806-5000

Telephone: Commercial (973) 724-7101; DSN 880-7101.

#### PGI 207.105 Contents of written acquisition plans.

For acquisitions covered by DFARS [207.103](#)(d)(i)(A) and (B), correlate the plan to the DoD Future Years Defense Program, applicable budget submissions, and the decision coordinating paper/program memorandum, as appropriate. It is incumbent upon the planner to coordinate the plan with all those who have a responsibility for the development, management, or administration of the acquisition. The acquisition plan should be provided to the contract administration organization to facilitate resource allocation and planning for the evaluation, identification, and management of contractor performance risk.

(a) *Acquisition background and objectives.*

(1) *Statement of need.* Include—

(A) Applicability of an acquisition decision document, a milestone decision review, or a service review, as appropriate.

(B) The date approval for operational use has been or will be obtained. If waivers are requested, describe the need for the waivers.

(C) A milestone chart depicting the acquisition objectives.

(D) Milestones for updating the acquisition plan. Indicate when the plan will be updated. Program managers should schedule updates to coincide with DAB reviews and the transition from one phase to another (e.g., system development and demonstration to production and deployment).

(E) *Supplies and services.* To determine if acquisitions for supplies or services are covered by DFARS [208.7](#), acquisition officials shall use the AbilityOne

Program Procurement List published by the Committee for Purchase From People Who Are Blind or Severely Disabled at [http://www.abilityone.gov/procurement\\_list/index.html](http://www.abilityone.gov/procurement_list/index.html) (see FAR Part 8.7).

(3)(i) Life-cycle cost. When acquiring tents or other temporary structures, consider total life-cycle costs in accordance with DFARS [215.101](#).

(8) *Acquisition streamlining*. See DoDD 5000.1, The Defense Acquisition System, and the Defense Acquisition Guidebook at <https://dag.dau.mil/Pages/Default.aspx>.

(b) *Plan of action*.

(2) *Competition*. For information on various approaches that may be used to competitively fulfill DoD requirements, see the Office of the Under Secretary of Defense for Acquisition, Technology, and Logistics [Guidelines for Creating and Maintaining a Competitive Environment for Supplies and Services in the Department of Defense](#).

(4) *Acquisition considerations*. When supplies or services will be acquired by placing an order under a non-DoD contract (e.g., a Federal Supply Schedule contract), regardless of whether the order is placed by DoD or by another agency on behalf of DoD, address the method of ensuring that the order will be consistent with DoD statutory and regulatory requirements applicable to the acquisition and the requirements for use of DoD appropriated funds.

(5) *Budgeting and funding*. Include specific references to budget line items and program elements, where applicable, estimated production unit cost, and the total cost for remaining production.

(6) *Product or service descriptions*. For development acquisitions, describe the market research undertaken to identify commercial items, commercial items with modifications, or nondevelopmental items (see FAR Part 10) that could satisfy the acquisition objectives.

(14) *Logistics considerations*.

(i) Describe the extent of integrated logistics support planning, including total life cycle system management and performance-based logistics. Reference approved plans. See [PGI 245.103-73](#) for information on reporting requirements for Government inventory held by contractors under sustainment contracts in accordance with DoD Manual 4140.01, Volume 6, DoD Supply Chain Materiel Management Procedures: Materiel Returns, Retention, and Disposition.

(ii) Discuss the mission profile, reliability, and maintainability (R&M) program plan, R&M predictions, redundancy, qualified parts lists, parts and material qualification,

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

R&M requirements imposed on vendors, failure analysis, corrective action and feedback, and R&M design reviews and trade-off studies. Also discuss corrosion prevention and mitigation plans.

(iii) For all acquisitions, see Subpart [227.71](#) regarding technical data and associated license rights, and Subpart [227.72](#) regarding computer software and associated license rights. For acquisitions involving major weapon systems and subsystems of major weapon systems, see the additional requirements at DFARS [207.106](#)(S-70).

(iv) See DoD 4120.24-M, Defense Standardization Program (DSP) Policies and Procedures.

(S-70) Describe the extent of Computer-Aided Acquisition and Logistics Support (CALs) implementation (see MIL-STD-1840C, Automated Interchange of Technical Information).

(17) *Environmental and energy conservation objectives.*

(i) Discuss actions taken to ensure either elimination of or authorization to use class I ozone-depleting chemicals and substances (see DFARS Subpart [223.8](#)).

(ii) Ensure compliance with DoDI 4715.23, Integrated Recycling and Solid Waste Management.

(20) *Other considerations.*

(A) *National Technology and Industrial Base.* For major defense acquisition programs, address the following (10 U.S.C. 2506)—

(1) An analysis of the capabilities of the national technology and industrial base to develop, produce, maintain, and support such program, including consideration of the following factors related to foreign dependency (10 U.S.C. 2505)—

(i) The availability of essential raw materials, special alloys, composite materials, components, tooling, and production test equipment for the sustained production of systems fully capable of meeting the performance objectives established for those systems; the uninterrupted maintenance and repair of such systems; and the sustained operation of such systems.

(ii) The identification of items specified in paragraph (b)(19)(A)(1)(i) of this section that are available only from sources outside the national technology and industrial base.

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

(iii) The availability of alternatives for obtaining such items from within the national technology and industrial base if such items become unavailable from sources outside the national technology and industrial base; and an analysis of any military vulnerability that could result from the lack of reasonable alternatives.

(iv) The effects on the national technology and industrial base that result from foreign acquisition of firms in the United States.

(2) Consideration of requirements for efficient manufacture during the design and production of the systems to be procured under the program.

(3) The use of advanced manufacturing technology, processes, and systems during the research and development phase and the production phase of the program.

(4) To the maximum extent practicable, the use of contract solicitations that encourage competing offerors to acquire, for use in the performance of the contract, modern technology, production equipment, and production systems (including hardware and software) that increase the productivity of the offerors and reduce the life-cycle costs.

(5) Methods to encourage investment by U.S. domestic sources in advanced manufacturing technology production equipment and processes through—

(i) Recognition of the contractor's investment in advanced manufacturing technology production equipment, processes, and organization of work systems that build on workers' skill and experience, and work force skill development in the development of the contract objective; and

(ii) Increased emphasis in source selection on the efficiency of production.

(6) Expanded use of commercial manufacturing processes rather than processes specified by DoD.

(7) Elimination of barriers to, and facilitation of, the integrated manufacture of commercial items and items being produced under DoD contracts.

(8) Expanded use of commercial items, commercial items with modifications, or to the extent commercial items are not available, nondevelopmental items (see FAR Part 10).

(9) Acquisition of major weapon systems as commercial items (see DFARS Subpart [234.70](#)).

## PGI 207—Acquisition Planning

---

### (B) *Industrial Capability (IC).*

(1) Provide the program's IC strategy that assesses the capability of the U.S. industrial base to achieve identified surge and mobilization goals. If no IC strategy has been developed, provide supporting rationale for this position.

(2) If, in the IC strategy, the development of a detailed IC plan was determined to be applicable, include the plan by text or by reference. If the development of the IC plan was determined not to be applicable, summarize the details of the analysis forming the basis of this decision.

(3) If the program involves peacetime and wartime hardware configurations that are supported by logistics support plans, identify their impact on the IC plan.

(C) *Special considerations for acquisition planning for crisis situations.* Ensure that the requirements of DoD Instruction 1100.22, Policy and Procedures for Determining Workforce Mix, are addressed. Also—

(1) Acquisition planning must consider whether a contract is likely to be performed in crisis situations outside the United States and must develop appropriately detailed measures for inclusion in the contract. Combatant commanders establish operational plans identifying essential services that must continue during crisis. DoDI 1100.22 requires Combatant Commanders to develop contingency plans if they have a reasonable doubt that a contractor will continue to provide essential services during a mobilization or crisis. When planning the acquisition, consider these operational plans and the resources available to carry out these plans.

(2) During acquisition planning, identify which services have been declared so essential that they must continue during a crisis situation. A best practice is to create a separate section, paragraph, line, or other designation in the contract for these essential services so they can be tracked to an option or separate contract line item.

(3) The requirements for the contractor written plan for continuity of essential services and the criteria for assessing the sufficiency of the plan will be determined/tailored for each acquisition of essential services by the contracting officer in coordination with the functional manager. The contractor's written plan, including prices/cost, shall be considered and evaluated in conjunction with the technical evaluation of offers.

(4) Operational-specific contractor policies and requirements resulting from combatant commander "integrated planning" will be described in operation plans (OPLAN), operation orders (OPORD) or separate annexes, and must be incorporated into applicable contracts. The plans may include rules for theater entry, country clearance, use of weapons, living on-base, etc. Therefore, the requiring activity is responsible for obtaining pertinent

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

OPLANs, OPORDs, and annexes (or unclassified extracts) from the affected combatant command or military service element or component and for ensuring that the contract is consistent with the theater OPLAN and OPORD.

(5) Ask the requiring activity to confirm that the appropriate personnel department has determined that inherently Governmental functions are not included in the contract requirements. If contract services will become inherently Governmental during a time of crisis, ensure that the contract states that work will be removed from the contract (temporarily or permanently) upon the occurrence of a triggering event (specified in the contract) or upon notice from the contracting officer that informs the contractor when its responsibility to perform affected duties will stop or restart. The contract should require the contractor to have a plan for restarting performance after the crisis ends.

(6) If the combatant commander's contingency plan requires military members to replace contractor employees during a crisis or contingency, acquisition planning must consider whether the contract should require the contractor to train military members to do that.

(7) For acquisitions that have or may have some portion of delivery of items or performance in a foreign country, address considerations and requirements set forth in DFARS [225.370](#), Contracts requiring performance or delivery in a foreign country; [225.371](#), Contractor personnel supporting U.S. Armed Forces deployed outside the United States; [225.372](#), Antiterrorism/force protection, and [225.373](#), Contract administration in support of contingency operations.

(8) Contract administration planning considerations for contracts in support of contingency operations.

(i) When delegation of contract administration services to a contracting officer located in a different geographic area to support a contract for the delivery of items or performance in a joint operations area will or may occur, address the resourcing of contract administration and oversight personnel, including administrative contracting officers, quality assurance specialists, contract administrators, property administrators, and contracting officers' representatives.

(ii) If contract delivery of items or performance in support of contingency operations will or may occur in an austere, uncertain, or hostile environment, address the need for logistics support of contract administration and oversight personnel.

(iii) When some portion of contract delivery of items or performance may take place in a contingency area, address pertinent combatant commander or joint force commander requirements and considerations for contract administration. Such requirements will be maintained on the particular combatant commander operational contract support website, [http://www.acq.osd.mil/dpap/pacc/cc/areas\\_of\\_responsibility.html](http://www.acq.osd.mil/dpap/pacc/cc/areas_of_responsibility.html).

## PGI 207—Acquisition Planning

---

(iv) When contracts are awarded for performance in a contingency area, the head of the contracting activity is responsible for planning to ensure that contingency contracts will be closed in a timely manner considering personnel turnover and preaward, contract administration, and other contracting workload. A plan for reachback support of contract closeouts should be included, if required.

(9) For contracts that will incorporate the clause at DFARS [252.225-7040](#), Contractor Personnel Supporting U.S. Armed Forces Deployed Outside the United States, in accordance with DFARS [225.371-5\(a\)](#), or otherwise require accountability for contractor personnel, consider the requirements and resources necessary for both the Government and contractor to keep the Synchronized Predeployment and Operational Tracker (SPOT) current in accordance with the SPOT business rules available at the website provided at [http://www.acq.osd.mil/log/PS/ctr\\_mgt\\_accountability.html](http://www.acq.osd.mil/log/PS/ctr_mgt_accountability.html).

(10) For contracts that will incorporate the clause at FAR 52.222-50, Combating Trafficking in Persons, consider the requirements and resources necessary for both the Government and contractor to implement and maintain compliance with Federal and DoD trafficking in persons requirements, including [PGI 222.1703](#).

(D) *Software and software maintenance*. When acquiring software or software maintenance, see DFARS [212.212](#).

(E) *Procurement Support for Theater Security Cooperation Efforts*. When planning procurement support for theater security cooperation efforts (e.g., military exercises/training, base operations, weapons procurement, aviation fuels, construction, or the President's Emergency Plan for Aids Relief projects), planners should be aware that Department of State (DoS) missions (embassies and consulates) do not provide such contracting support; however, these missions can provide support for routine, non-complex services and supplies used by U.S. Government personnel, even if funded with foreign-military-sales case money (see DFARS [PGI 225.78](#)). Planners shall take the following steps:

(1) Become familiar with DoS Cable 11 STATE 030953, "Procurement Roles and Responsibilities – General Services Officer and DoD Personnel" (see also DFARS [PGI 225.78](#)).

(2) Request general guidance from the combatant-command coordinator on past practices in the particular location for which procurement support is to be requested;

(3) Contact the Defense Attaché Office and/or General Services Officer (normally the embassy/consulate contracting officer) at the DoS mission at least 60 days prior to the requirement, or as soon as practicable, to obtain information on—

(i) Availability of, and procedures associated with, requesting DoS mission procurement support;

(ii) Local sources of supplies and services; and

(iii) Business payment practices to support DoD procurement of specific theater security cooperation procurement requirements.

(4) Ascertain whether payment support is available from the DoS mission.

(5) When DoS contracting support is determined to be unavailable or not allowed, ensure the party of DoD military and/or civilians deploying to support the particular Theater Security Cooperation effort either pre-arranges DoD contracting support through reach-back, if possible, or if necessary, includes a warranted contracting officer, field-ordering officer, or credit-card holder, and, if necessary, a paying agent.

### PGI 207.171 Component breakout.

#### PGI 207.171-4 Procedures.

(1) *Responsibility.*

(i) Agencies are responsible for ensuring that—

(A) Breakout reviews are performed on components meeting the criteria in DFARS [207.171-3](#)(a) and (b);

(B) Components susceptible to breakout are earmarked for consideration in future acquisitions;

(C) Components earmarked for breakout are considered during requirements determination and appropriate decisions are made; and

(D) Components are broken out when required.

(ii) The program manager or other official responsible for the material program concerned is responsible for breakout selection, review, and decision.

(iii) The contracting officer or buyer and other specialists (e.g., small business specialist, engineering, production, logistics, and maintenance) support the program manager in implementing the breakout program.

(2) *Breakout review and decision.*

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

- (i) A breakout review and decision includes—
  - (A) An assessment of the potential risks to the end item from possibilities such as delayed delivery and reduced reliability of the component;
  - (B) A calculation of estimated net cost savings (i.e., estimated acquisition savings less any offsetting costs); and
  - (C) An analysis of the technical, operational, logistics, and administrative factors involved.
- (ii) The decision must be supported by adequate explanatory information, including an assessment by the end item contractor when feasible.
- (iii) The following questions should be used in the decision process:
  - (A) Is the end item contractor likely to do further design or engineering effort on the component?
  - (B) Is a suitable data package available with rights to use it for Government acquisition? (Note that breakout may be warranted even though competitive acquisition is not possible.)
  - (C) Can any quality control and reliability problems of the component be resolved without requiring effort by the end item contractor?
  - (D) Will the component require further technical support (e.g., development of specifications, testing requirements, or quality assurance requirements)? If so, does the Government have the resources (manpower, technical competence, facilities, etc.) to provide such support? Or, can the support be obtained from the end item contractor (even though the component is broken out) or other source?
  - (E) Will breakout impair logistics support (e.g., by jeopardizing standardization of components)?
  - (F) Will breakout unduly fragment administration, management, or performance of the end item contract (e.g., by complicating production scheduling or preventing identification of responsibility for end item failure caused by a defective component)?
  - (G) Can breakout be accomplished without jeopardizing delivery requirements of the end item?
  - (H) If a decision is made to break out a component, can advance acquisition funds be made available to provide the new source any necessary additional lead time?

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

(I) Is there a source other than the present manufacturer capable of supplying the component?

(J) Has the component been (or is it going to be) acquired directly by the Government as a support item in the supply system or as Government-furnished equipment in other end items?

(K) Will the financial risks and other responsibilities assumed by the Government after breakout be acceptable?

(L) Will breakout result in substantial net cost savings? Develop estimates of probable savings in cost considering all offsetting costs such as increases in the cost of requirements determination and control, contracting, contract administration, data package purchase, material inspection, qualification or preproduction testing, ground support and test equipment, transportation, security, storage, distribution, and technical support.

(iv) If answers to the questions reveal conditions unfavorable to breakout, the program manager should explore whether the unfavorable conditions can be eliminated. For example, where adequate technical support is not available from Government resources, consider contracting for the necessary services from the end item contractor or other qualified source.

### (3) *Records.*

(i) The contracting activity shall maintain records on components reviewed for breakout. Records should evidence whether the components—

(A) Have no potential for breakout;

(B) Have been earmarked as potential breakout candidates; or

(C) Have been, or will be, broken out.

(ii) The program manager or other designated official must sign the records.

(iii) Records must reflect the facts and conditions of the case, including any assessment by the contractor, and the basis for the decision. The records must contain the assessments, calculations, and analyses discussed in paragraph 2 of this section, including the trade-off analysis between savings and increased risk to the Government because of responsibility for Government-furnished equipment.

#### PGI 211.201 Identification and availability of specifications.

(1) Specifications, standards, and data item descriptions are indexed in the Acquisition Streamlining and Standardization Information System (ASSIST).

(2) Most unclassified specifications, standards, and data item descriptions, and DoD adoption notices on voluntary consensus standards may be downloaded from the ASSIST database (<https://assist.dla.mil/> or <http://quicksearch.dla.mil/>). Documents contained in ASSIST that are not available for download may be identified and obtained by following the instructions at <http://assist.dla.mil/online/faqs/overview.cfm>.

#### PGI 211.273 Substitutions for military or Federal specifications and standards.

##### PGI 211.273-3 Procedures.

(1) Solicitations for previously developed items shall encourage offerors to identify Single Process Initiative (SPI) processes for use instead of military or Federal specifications and standards cited in the solicitation. Use of the clause at DFARS [252.211-7005](#), Substitutions for Military or Federal Specifications and Standards, satisfies this requirement.

(2) Contracting officers shall ensure that—

(i) Concurrence of the requiring activity is obtained for any proposed substitutions prior to contract award;

(ii) Any necessary additional information regarding the SPI process identified in the proposal is obtained from the cognizant administrative contracting officer; and

(iii) In competitive procurements, prospective offerors are provided the opportunity to obtain verification that an SPI process is an acceptable replacement for a military or Federal specification or standard for the particular procurement prior to the date specified for receipt of offers.

(3) Any determination that an SPI process is not acceptable for a specific procurement shall be made prior to contract award at the head of the contracting activity or program executive officer level. This authority may not be delegated.

## PGI 225—Foreign Acquisition

---

*(Revised February 15, 2019)*

### PGI 225.3 CONTRACTS PERFORMED OUTSIDE THE UNITED STATES

#### PGI 225.370 Contracts requiring performance or delivery in a foreign country.

(a) If the acquisition requires the performance of services or delivery of supplies in an area outside the United States, the contracting officer shall—

(i) Ensure that the solicitation and contract include any applicable host country and designated operational area performance considerations. Failure to provide such information—

(A) May result in a contract that does not reflect the respective support relationships between the contractor and the Government, ultimately affecting the ability of the contractor to fulfill the contract terms and conditions;

(B) May result in unplanned support burdens being placed on the Government in a theater of operations;

(C) May result in contractor personnel conflicting with theater operations or performing in violation of a theater commander's directives or host country laws; or

(D) May cause contractor personnel to be wrongly subjected to host country laws;

(ii) Comply with any theater business clearance and contract administration delegation requirements set forth in memorandum ([click here](#)) entitled Theater Business Clearance/Contract Administration Delegation Update—Integration of TBC with the Joint Contingency Contracting System Platform (which must be consistent with the combat support agency's established functions and responsibilities) and set forth by the geographic combatant commander during declared contingency operations for all solicitations and contracts that relate to the delivery of supplies and services to the designated area(s) of operation.

(A) Theater business clearance ensures—

(1) Contracted effort to be accomplished in designated area(s) of operations, along with any associated contractor personnel, is visible to the combatant commander;

(2) Contracted effort is in consonance with in-country commanders' plans;

(3) Solicitations and contracts contain appropriate terms and conditions;

(4) Contracted effort will be properly overseen in designated area(s) of operation;

# DFARS Procedures, Guidance, and Information

## PGI 225—Foreign Acquisition

---

(5) Any Government-furnished support requirements associated with contractor personnel are properly addressed in the contract terms and conditions.

### (B) Contract administration delegation—

(1) Allows the combatant commander to exercise control over the assignment of contract administration (which must be consistent with the combat support agency's established functions and responsibilities) for that portion of contracted effort that relates to performance in, or delivery to, designated area(s) of operation.

(2) Allows the combatant commander to exercise oversight to ensure the contractor's compliance with combatant commander and subordinate task force commander policies, directives, and terms and conditions;

(iii) Refer to the website at <http://www.acq.osd.mil/dpap/pacc/cc/index.html>, which contains required procedures and applicable guidance and information;

(iv) Follow specific guidance for the combatant command in whose area the contractor will be performing services or delivering supplies. This guidance is contained on the respective combatant commander's operational contract support webpage, which is linked to the procedures at [http://www.acq.osd.mil/dpap/pacc/cc/areas\\_of\\_responsibility.html](http://www.acq.osd.mil/dpap/pacc/cc/areas_of_responsibility.html), at the weblink for the combatant command for the area in which the contractor will be performing services or delivering items. These pages list prevailing regulations, policies, requirements, host nation laws, orders/fragmentary orders, combatant commander's directives, unique clauses, and other considerations necessary for soliciting and awarding a contract for performance in, or delivery of items to, that combatant commander's area of responsibility;

(v) To determine the appropriate point(s) of contact for contracting matters within the combatant commander's area of responsibility, contact the overseas contracting office by accessing the link for the combatant command in whose area of responsibility the contractor will be performing services or delivering items. From the combatant command website, link to the contracting office supporting the combatant command to identify the appropriate point of contact; and

(vi) Use the following checklist as a guide to document consideration of each listed issue, as applicable, and retain a copy of the completed checklist in the contract file.

### CHECKLIST

The contracting officer shall verify that the requiring activity has considered the following when building its requirements package, as applicable:

\_\_\_\_ (1) Whether the contemplated acquisition will duplicate or otherwise conflict with existing work being performed or items already provided in the area, and whether economies of scope/schedule can be leveraged if there are already existing contracts in place for similar work or items.

## DFARS Procedures, Guidance, and Information

### PGI 225—Foreign Acquisition

---

\_\_\_\_ (2) The availability of technically qualified and properly trained Government civilian and/or military personnel to oversee the performance of the contract in the combatant commander's area of responsibility (e.g., contracting officer's representatives, quality assurance representatives, and property administrators).

\_\_\_\_ (3) The applicability of any international agreements to the acquisition. (Some agreements may be classified and must be handled appropriately.)

\_\_\_\_ (4) Compliance with area-specific, anti-terrorism security guidance set forth by the command anti-terrorism officer, to include soliciting anti-terrorism officer guidance on the particular requirement and the location of delivery and/or execution of services, and incorporating recommended security measures into the requirements package.

\_\_\_\_ (5) Whether there are any requirements for use of foreign currencies, including applicability of U.S. holdings of excess foreign currencies.

\_\_\_\_ (6) Information on taxes and duties from which the Government may be exempt.

\_\_\_\_ (7) If the acquisition requires performance of work in the foreign country, whether there are standards of conduct for the prospective contractor and, if so, the consequences for violation of such standards of conduct.

\_\_\_\_ (8) The availability of logistical and other Government-furnished support and equipment for contractor personnel. This includes, but is not limited to: berthing and messing; intra-theater transportation; medical support; morale, welfare, and recreation support; postal support; force protection support; organizational clothing and personal protective gear (e.g., body armor and gas masks.)

\_\_\_\_ (9) If the contractor will employ foreign workers, whether a waiver of the Defense Base Act will be required (see FAR 28.305).

\_\_\_\_ (10) Whether contractor personnel will need authorization to carry weapons for the performance of the contract.

\_\_\_\_ (11) If the contract will include the clause at DFARS [252.225-7040](#), Contractor Personnel Supporting U.S. Armed Forces Deployed Outside the United States, the Government official authorized to receive DD Form 93, Record of Emergency Data Card, to enable the contracting officer to provide that information to the contractor, as required by paragraph (g) of the clause.

\_\_\_\_ (12) Ascertain the existence of and detail any Geographic Combatant Commander's (GCC's)/Subordinate Joint Force Commander Combating Trafficking in Persons Directives or Notices applying to Combating Trafficking in Persons (as required by FAR 22.1705 for contracts performed outside the United States) that would require the contracting officer to use Alternate I of the clause at FAR 52.222-50 detailing these requirements. This information can be ascertained from review of content on the cognizant Geographic Combatant Command Operational Contract Support webpage referred to in (a)(iv) of this PGI section.

\_\_\_\_ (13) Other requirements associated with contractor personnel to include deployment -related training, accountability (registration in Synchronized Pre-

deployment and Operational Tracker), medical and dental qualifications, theater entrance and country clearance requirements.

\_\_\_\_ (14) Any other requirements of the website for the country in which the contract will be performed or the designated operational area to which deliveries will be made.

The contracting officer shall provide the following information to the applicable overseas contracting office (see [PGI 225.370\(a\)\(v\)](#)):

\_\_\_\_ (1) The solicitation number, the estimated dollar value of the acquisition, and a brief description of the work to be performed or the items to be delivered.

\_\_\_\_ (2) Notice of contract award, including contract number, dollar value, and a brief description of the work to be performed or the items to be delivered.

\_\_\_\_ (3) Any additional information requested by the applicable contracting office to ensure full compliance with policies, procedures, and objectives of the applicable country or designated operational area.

(c) For work performed in Japan or Korea, U.S.-Japan or U.S.-Korea bilateral agreements govern the status of contractors and employees, criminal jurisdiction, and taxation. ### PGI 225.371-3 Government support.

(a) Support that may be authorized or required when contractor personnel are deployed with or otherwise provide support in the theater of operations to U.S. military forces deployed outside the United States may include, but are not limited to—

- (i) Deployment in-processing centers;
- (ii) Training;
- (iii) Transportation to operation area;
- (iv) Transportation within operation area;
- (v) Physical security;
- (vi) Force protection;
- (vii) Organizational clothing and individual equipment;
- (viii) Emergency medical care;
- (ix) Mess operations;
- (x) Quarters;
- (xi) Postal service;
- (xii) Phone service;
- (xiii) Emergency notification;
- (xiv) Laundry; and
- (xv) Religious services.

(d) *Medical support of contractor personnel.*

(1) Contractors are required to ensure that the Government is reimbursed for any costs associated with medical or dental care provided to contractor employees accompanying the forces (see [252.225-7040\(c\)\(2\)](#)).

(2) If questions arise concerning Defense Finance and Accounting Services (DFAS) billing to contractors for medical or dental care provided, contracting officers may refer the individual to any of the following resources:

(i) For in-patient and out-patient billing rates, go to <http://comptroller.defense.gov/FinancialManagement/Reports/rates2013.aspx>, click on the appropriate fiscal year, and select Deployed/Non-Fixed Medical Facility Billing Rates.

(iii) For general information on medical support of deployed contractor personnel in applicable contingency operations, see DoDI 3020.41.

(3) Contracting officers are not responsible for adjudicating DFAS bills to contractors for such medical or dental reimbursement. However, contracting officers are required to assist the Military Service POCs in resolving billing disputes.

(e) *Letter of authorization.*

(i) If authorized by the contracting officer, a contracting officer's representative may approve a SPOT-generated LOA. Contractor travel orders will be prepared by the supporting installation.

(ii) The LOA will state the intended length of assignment in the theater of operations and will identify planned use of Government facilities and privileges in the theater of operations, as authorized by the contract. Authorizations may include such privileges as access to the exchange facilities and the commissary, and use of Government messing and billeting. The LOA must include the name of the approving Government official.

(iii) Approved, standard DoD format for LOA: (See sample LOA, Business Rules for the Synchronized Predeployment and Operational Tracker, at [http://www.acq.osd.mil/log/PS/ctr\\_mgt\\_accountability.html](http://www.acq.osd.mil/log/PS/ctr_mgt_accountability.html))

### PGI 225.371-5 Contract clauses.

“Performance,” as used in [Class Deviation 2015-00009](#), Contractor Personnel Performing in the United States Central Command Area of Responsibility, means performance of a service or construction, as required by the contract. For supply contracts, production of the supplies or associated overhead functions are not covered by the Class Deviation, but services associated with the acquisition of the supplies are covered (e.g., installation or maintenance).

(b) When using the clause at DFARS [252.225-7040](#), Contractor Personnel Supporting U.S. Armed Forces Deployed Outside the United States, consider the applicability of the following clauses:

(i) The clause at DFARS [252.225-7043](#), Antiterrorism/Force Protection Policy for Defense Contractors Outside the United States, as prescribed at DFARS [225.372-2](#).

(ii) Either the clause at FAR 52.228-3, Workers' Compensation Insurance (Defense Base Act), or the clause at FAR 52.228-4, Workers' Compensation and War-Hazard Insurance Overseas, as prescribed at FAR 28.309(a) and (b).

competencies, for contracts requiring delivery of items or performance within the area of operations.

(2) In certain contingency operations, the combatant commander or joint force commander may promulgate theater or joint operations area guidance for contracting that may include establishing—

- (i) A contracting command and control structure;
- (ii) Head of contracting activity responsibilities, specific orders, and policies, including local clauses;
- (iii) Roles and responsibilities of DoD components and supporting agencies in contract formation and execution; and
- (iv) Procedures and requirements for contract clearance and contract administration of contracts requiring delivery of items and performance within the area of operations.

(3) When a combat support agency is tasked by the combatant commander to provide contingency contract administration services in support of contingency operations and such support will be required for a long duration, the combat support agency shall initiate a memorandum of agreement with the combatant commander or joint force commander. This agreement shall clearly delineate the purpose of the support, respective responsibilities of the combat support agency and the joint, lead service, or service contracting activity requesting the support, combat support agency support parameters, and a resolution process for resolving support issues.

(i) The memorandum of agreement should focus on maximizing the combat support agency's core competencies to address the more critical, complex, high-risk, and specialized oversight requirements.

(ii) The memorandum of agreement should take into consideration the combat support agency's core competencies, workload priorities, and contract administration services support parameters for accepting requests for contract administration services support.

(iii) A combat support agency shall not be assigned to perform tasks outside its mission functions, responsibilities, or core competencies.

(iv) Contracting officers contemplating requesting contract administration support in a contingency area from a combat support agency should first ascertain whether such a memorandum of agreement exists by contacting their combat support agency point of contact and/or checking the combatant commander operational contract support website (referenced in DFARS [PGI 225.370](#)).

(v) The following is a notional format for a memorandum of agreement for contract administration services support;

## PGI 225—Foreign Acquisition

---

(A) Purpose: Outline formal procedures for requesting contract administration services support, describe objectives associated with combat support agency providing such support.

(B) Reference: Key documents or reference(s) associated with the execution of the contract administration services support.

(C) Clearing-house functions performed by the designated joint or lead component contracting activity in the operational area—

(1) Contract clearance parameters – when required;

(2) Contract delegation parameters – when required.

(D) Contract administration services support parameters—

(1) Acceptable for delegation - contract types that will be accepted by the combat support agency based on risk, dollar threshold, geographic dispersion of performance, service type, criticality of acceptance, or other criteria;

(2) Generally not be delegated – below-threshold contract types;

(3) Will not be delegated – no agency expertise to oversee.

(E) Delegation process – process for accepting and assigning contract administration services tasks within the combat support agency.

(F) Joint resolution process – procedures in the event of disagreement on actions to be supported by the combat support agency.

(G) Term of the Agreement and Modification - length of time the agreement will be in effect and procedures for the parties to modify or terminate it.

(4) Disputes regarding requested support should be resolved at the lowest management level possible, through a predetermined resolution process. When support issues arise that affect the ability of a combat support agency to provide contract administration support that cannot be resolved at lower management levels, follow procedures set forth in DoDI 3000.06, Combat Support Agencies, paragraphs 5.6.8 and 5.6.9, (<http://www.dtic.mil/whs/directives/corres/pdf/300006p.pdf>).

(5) Responsibilities of the head of the contracting activity for contingency contract closeout are addressed at DFARS [204.804](#)(2). See also planning considerations at [PGI 207.105](#)(b)(20)(C)(8).

*(Revised February 15, 2019)*

### **PGI 225.78—ACQUISITIONS IN SUPPORT OF GEOGRAPHIC COMBATANT COMMAND’S THEATER SECURITY COOPERATION EFFORTS**

#### **PGI 225.7801 Policy.**

DoD components are responsible for providing procurement and contracting support of theater security cooperation efforts conducted in support of combatant commander/Chief of Mission, to include military exercises/training, base operations, weapons procurement, aviation fuels and construction and the President's Emergency Plan for Aids relief. By [Director, Defense Procurement and Acquisition Policy \(DPAP\) memorandum dated May 6, 2011](#) and its attachment, Department of State (DoS) Cable 11 STATE 030953, “Procurement Roles and Responsibilities – General Services Officer and DoD Personnel,” DoS procurement support is normally restricted to those routine non-complex supplies and services used by U. S. Government personnel permanently assigned at post and acquired for U. S. Government employee direct use. Follow all guidance set forth in this Director, DPAP-approved cable and associated planning considerations at [PGI 207.105](#) (b)(20)(E).
