202.101 Definitions.

“Authorized aftermarket manufacturer” means an organization that fabricates an
electronic part under a contract with, or with the express written authority of, the
original component manufacturer based on the original component manufacturer’s
designs, formulas, and/or specifications.

“Compromise” means disclosure of information to unauthorized persons, or a violation
of the security policy of a system, in which unauthorized intentional or unintentional
disclosure, modification, destruction, or loss of an object, or the copying of information to
unauthorized media may have occurred.

paragraph (2) of this definition or as otherwise specified by statute for particular
applications—

defense agency which has been delegated contracting authority through its agency
charter. DoD contracting activities are listed at PGI 202.101.

“Contracting officer's representative” means an individual designated and authorized in
writing by the contracting officer to perform specific technical or administrative
functions.

“Contractor-approved supplier” means a supplier that does not have a contractual
agreement with the original component manufacturer for a transaction, but has been
identified as trustworthy by a contractor or subcontractor.
“Counterfeit electronic part” means an unlawful or unauthorized reproduction, substitution, or alteration that has been knowingly mismarked, misidentified, or otherwise misrepresented to be an authentic, unmodified electronic part from the original manufacturer, or a source with the express written authority of the original manufacturer or current design activity, including an authorized aftermarket manufacturer. Unlawful or unauthorized substitution includes used electronic parts represented as new, or the false identification of grade, serial number, lot number, date code, or performance characteristics.

“Cyber incident” means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

“Departments and agencies,” as used in DFARS, means the military departments and the defense agencies. The military departments are the Departments of the Army, Navy, and Air Force (the Marine Corps is a part of the Department of the Navy). The defense agencies are the Defense Advanced Research Projects Agency, the Defense Commissary Agency, the Defense Contract Management Agency, the Defense Counterintelligence and Security Agency, the Defense Finance and Accounting Service, the Defense Health Agency, the Defense Information Systems Agency, the Defense Intelligence Agency, the Defense Logistics Agency, the Defense Threat Reduction Agency, the Missile Defense Agency, the National Geospatial-Intelligence Agency, the National Security Agency, the Space Development Agency, the United States Cyber Command, the United States Special Operations Command, the United States Transportation Command, and the Washington Headquarters Service.

“Electronic part” means an integrated circuit, a discrete electronic component (including, but not limited to, a transistor, capacitor, resistor, or diode), or a circuit assembly (section 818(f)(2) of Pub. L. 112-81).

“Executive agency” means for DoD, the Department of Defense, the Department of the Army, the Department of the Navy, and the Department of the Air Force.

“Head of the agency” means, for DoD, the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, and the Secretary of the Air Force. Subject to the direction of the Secretary of Defense, the Under Secretary of Defense (Acquisition, Technology, and Logistics), and the Director of Defense Procurement and Acquisition Policy, the directors of the defense agencies have been delegated authority to act as head of the agency for their respective agencies (i.e., to perform functions under the FAR or DFARS reserved to a head of agency or agency head), except for such actions that by terms of statute, or any delegation, must be exercised within the Office of the Secretary of Defense. (For emergency acquisition flexibilities, see 218.270.)

“Major defense acquisition program” is defined in 10 U.S.C. 2430(a).

“Micro-purchase threshold,” for DoD acquisition of supplies or services funded by DoD appropriations, in lieu of the definition at FAR 2.101, means $5,000 (10 U.S.C. 2338), except—
(1) For DoD acquisition of supplies or services for basic research programs and for activities of the DoD science and technology reinvention laboratories (https://www.acq.osd.mil/rd/laboratories/labs/list_strl.html), it means $10,000 (10 U.S.C. 2339);

(2) For acquisitions of construction subject to 40 U.S.C. chapter 31, subchapter IV, Wage Rate Requirements (Construction), $2,000;

(3) For acquisitions of services subject to 41 U.S.C. chapter 67, Service Contract Labor Standards, $2,500; and

(4) For acquisitions of supplies or services that, as determined by the head of the contracting activity, are to be used to support a contingency operation; or to facilitate defense against or recovery from cyber, nuclear, biological, chemical or radiological attack; to support a request from the Secretary of State or the Administrator of the United States Agency for International Development to facilitate provision of international disaster assistance pursuant to 22 U.S.C. 2292 et seq.; or to support response to an emergency, or major disaster (42 U.S.C. 5122), as described in 13.201(g)(1), except for construction subject to 40 U.S.C. chapter 31, subchapter IV, Wage Rate Requirements (Construction) (41 U.S.C. 1903)—

(i) $20,000 in the case of any contract to be awarded and performed, or purchase to be made, inside the United States; and

(ii) $30,000 in the case of any contract to be awarded and performed, or purchase to be made, outside the United States.

“Milestone decision authority,” with respect to a major defense acquisition program, major automated information system, or major system, means the official within the Department of Defense designated with the overall responsibility and authority for acquisition decisions for the program or system, including authority to approve entry of the program or system into the next phase of the acquisition process (10 U.S.C. 2431a).

“Non-Government sales” means sales of the supplies or services to non-Governmental entities for purposes other than governmental purposes.

“Nontraditional defense contractor” means an entity that is not currently performing and has not performed any contract or subcontract for DoD that is subject to full coverage under the cost accounting standards prescribed pursuant to 41 U.S.C. 1502 and the regulations implementing such section, for at least the 1-year period preceding the solicitation of sources by DoD for the procurement (10 U.S.C. 2302(9)).

“Obsolete electronic part” means an electronic part that is no longer available from the original manufacturer or an authorized aftermarket manufacturer.

“Offset” means a benefit or obligation agreed to by a contractor and a foreign government or international organization as an inducement or condition to purchase supplies or services pursuant to a foreign military sale (FMS). There are two types of offsets: direct offsets and indirect offsets.

(1) A direct offset involves benefits or obligations, including supplies or services that are directly related to the item(s) being purchased and are integral to the deliverable of
the FMS contract. For example, as a condition of a foreign military sale, the contractor may require or agree to permit the customer to produce in its country certain components or subsystems of the item being sold. Generally, direct offsets must be performed within a specified period, because they are integral to the deliverable of the FMS contract.

(2) An indirect offset involves benefits or obligations, including supplies or services that are not directly related to the specific item(s) being purchased and are not integral to the deliverable of the FMS contract. For example, as a condition of a foreign military sale, the contractor may agree to purchase certain manufactured products, agricultural commodities, raw materials, or services, or make an equity investment or grant of equipment required by the FMS customer, or may agree to build a school, road or other facility. Indirect offsets would also include projects that are related to the FMS contract but not purchased under said contract (e.g., a project to develop or advance a capability, technology transfer, or know-how in a foreign company). Indirect offsets may be accomplished without a clearly defined period of performance.

“Offset costs” means the costs to the contractor of providing any direct or indirect offsets required (explicitly or implicitly) as a condition of a foreign military sale.

“Original component manufacturer” means an organization that designs and/or engineers a part and is entitled to any intellectual property rights to that part.

“Original equipment manufacturer” means a company that manufactures products that it has designed from purchased components and sells those products under the company's brand name.

“Original manufacturer” means the original component manufacturer, the original equipment manufacturer, or the contract manufacturer.

“Procedures, Guidance, and Information (PGI)” means a companion resource to the DFARS that—

(1) Contains mandatory internal DoD procedures. The DFARS will direct compliance with mandatory procedures using imperative language such as “Follow the procedures at...” or similar directive language;

(2) Contains non-mandatory internal DoD procedures and guidance and supplemental information to be used at the discretion of the contracting officer. The DFARS will point to non-mandatory procedures, guidance, and information using permissive language such as “The contracting officer may use...” or “Additional information is available at...” or other similar language;

(3) Is numbered similarly to the DFARS, except that each PGI numerical designation is preceded by the letters “PGI”; and

“Senior procurement executive” means, for DoD—

Department of Defense (including the defense agencies)—Under Secretary of Defense (Acquisition, Technology, and Logistics);
Department of the Army--Assistant Secretary of the Army (Acquisition, Logistics and Technology);
Department of the Navy--Assistant Secretary of the Navy (Research, Development and Acquisition);
Department of the Air Force--Assistant Secretary of the Air Force (Acquisition).

The directors of the defense agencies have been delegated authority to act as senior procurement executive for their respective agencies, except for such actions that by terms of statute, or any delegation, must be exercised by the Under Secretary of Defense (Acquisition, Technology, and Logistics).

“Sufficient non-Government sales” means relevant sales data that reflects market pricing and contains enough information to make adjustments covered by FAR 15.404-1(b)(2)(ii)(B).

“Suspect counterfeit electronic part” means an electronic part for which credible evidence (including, but not limited to, visual inspection or testing) provides reasonable doubt that the electronic part is authentic.

“Tiered evaluation of offers,” also known as “cascading evaluation of offers,” means a procedure used in negotiated acquisitions, when market research is inconclusive for justifying limiting competition to small business concerns, whereby the contracting officer—

(1) Solicits and receives offers from both small and other than small business concerns;

(2) Establishes a tiered or cascading order of precedence for evaluating offers that is specified in the solicitation; and

(3) If no award can be made at the first tier, evaluates offers at the next lower tier, until award can be made.

“Uncertified cost data” means the subset of “data other than certified cost or pricing data” (see FAR 2.101) that relates to cost.

204.7100 Scope.
This subpart prescribes policies and procedures for assigning contract line item numbers.

204.7101 Definitions.

“Accounting classification reference number (ACRN)” means any combination of a two position alpha/numeric code used as a method of relating the accounting classification citation to detailed line item information contained in the schedule.

“Attachment” means any documentation, appended to a contract or incorporated by reference, which does not establish a requirement for deliverables.

“Definitized item,” as used in this subpart, means an item for which a firm price has been established in the basic contract or by modification.

“Exhibit” means a document, referred to in a contract, which is attached and establishes requirements for deliverables. The term shall not be used to refer to any other kind of attachment to a contract. The DD Form 1423, Contract Data Requirements List, is always an exhibit, rather than an attachment.

“Nonseverable deliverable,” as used in this subpart, means a deliverable item that is a single end product or undertaking, entire in nature, that cannot be feasibly subdivided into discrete elements or phases without losing its identity.

“Undefinitized item,” as used in this subpart, means an item for which a price has not been established in the basic contract or by modification.

204.7102 Policy.

(a) The numbering procedures of this subpart shall apply to all—

(1) Solicitations;
(2) Solicitation line and subline item numbers;
(3) Contracts as defined in FAR Subpart 2.1;
(4) Contract line and subline item numbers;
(5) Exhibits;
(6) Exhibit line items; and
(7) Any other document expected to become part of the contract.
(b) The numbering procedures are mandatory for all contracts where separate contract line item numbers are assigned, unless—

(1) The contract is an indefinite-delivery type for petroleum products against which posts, camps, and stations issue delivery orders for products to be consumed by them; or

(2) The contract is a communications service authorization issued by the Defense Information Systems Agency's Defense Information Technology Contracting Organization.

204.7103 Contract line items.

Follow the procedures at PGI 204.7103 for establishing contract line items.

204.7103-1 Criteria for establishing.

Contracts shall identify the items or services to be acquired as separate contract line items unless it is not feasible to do so.

(a) Contract line items shall have all four of the following characteristics; however, there are exceptions within the characteristics, which may make establishing a separate contract line item appropriate even though one of the characteristics appears to be missing—

(1) Single unit price. The item shall have a single unit price or a single total price, except—

(i) If the item is not separately priced (NSP) but the price is included in the unit price of another contract line item, enter NSP instead of the unit price;

(ii) When there are associated subline items, established for other than informational reasons, and those subline items are priced in accordance with 204.7104;

(iii) When the items or services are being acquired on a cost-reimbursement contract;

(iv) When the contract is for maintenance and repair services (e.g., a labor hour contract) and firm prices have been established for elements of the total price of an item but the actual number and quantity of the elements are not known until performance. The contracting officer may structure these contracts to reflect a firm or estimated total amount for each line item;

(v) When the contract line item is established to refer to an exhibit or an attachment (if management needs dictate that a unit price be entered, the price shall be set forth in the item description block and enclosed in parentheses); or

(vi) When the contract is an indefinite delivery type contract and provides that the price of an item shall be determined at the time a delivery order is placed and the price is influenced by such factors as the quantity ordered (e.g., 10-99 @ $1.00, 100-249 @ $.98, 250+ @ $.95), the destination, the FOB point, or the type of packaging required.
(2) **Separately identifiable.** A contract line item must be identified separately from any other items or services on the contract.

(i) Supplies are separately identifiable if they have no more than one—

(A) National stock number (NSN);

(B) Item description; or

(C) Manufacturer's part number.

(ii) Services are separately identifiable if they have no more than one—

(A) Scope of work; or

(B) Description of services.

(iii) This requirement does not apply if there are associated subline items, established for other than informational reasons, and those subline items include the actual detailed identification in accordance with 204.7104. Where this exception applies, use a general narrative description instead of the contract item description.

(3) **Separate delivery schedule.** Each contract line item or service shall have its own delivery schedule, period of performance, or completion date expressly stated (“as required” constitutes an expressly stated delivery term).

(i) The fact that there is more than one delivery date, destination, performance date, or performance point may be a determining factor in the decision as to whether to establish more than one contract line item.

(ii) If a contract line item has more than one destination or delivery date, the contracting officer may create individual contract line items for the different destinations or delivery dates, or may specify the different delivery dates for the units by destination in the delivery schedule.

(4) **Single accounting classification citation.**

(i) Each contract line item shall reference a single accounting classification citation except as provided in paragraph (a)(4)(ii) of this subsection.

(ii) The use of multiple accounting classification citations for a contract line item is authorized in the following situations:

(A) A single, nonseverable deliverable to be paid for with R&D or other funds properly incrementally obligated over several fiscal years in accordance with DoD policy;

(B) A single, nonseverable deliverable to be paid for with different authorizations or appropriations, such as in the acquisition of a satellite or the modification of production tooling used to produce items being acquired by several activities; or
(C) A modification to an existing contract line item for a nonseverable deliverable that results in the delivery of a modified item(s) where the item(s) and modification are to be paid for with different accounting classification citations.

(iii) When the use of multiple accounting classification citations is authorized for a single contract line item, establish informational subline items for each accounting classification citation in accordance with 204.7104-1(a).

(b) All subline items and exhibit line items under one contract line item shall be the same contract type as the contract line item.

(c) For a contract that contains a combination of fixed-price line items, time-and-materials/labor-hour line items, and/or cost-reimbursement line items, identify the contract type for each contract line item in Section B, Supplies or Services and Prices/Costs, to facilitate appropriate payment.

(d) Exhibits may be used as an alternative to putting a long list of contract line items in the schedule. If exhibits are used, create a contract line item citing the exhibit's identifier. See 204.7105.

(e) If the contract involves a test model or a first article which must be approved, establish a separate contract line item or subline item for each item of supply or service which must be approved. If the test model or first article consists of a lot composed of a mixture of items, a single line item or subline item may be used for the lot.

(f) If a supply or service involves ancillary functions, like packaging and handling, transportation, payment of state or local taxes, or use of reusable containers, and these functions are normally performed by the contractor and the contractor is normally entitled to reimbursement for performing these functions, do not establish a separate contract line item solely to account for these functions. However, do identify the functions in the contract schedule. If the offeror separately prices these functions, contracting officers may establish separate contract line items for the functions; however, the separate line items must conform to the requirements of paragraph (a) of this subsection.

(g) Certain commercial items and initial provisioning spares for weapons systems are requested and subsequently solicited using units of measure such as kit, set, or lot. However, there are times when individual items within that kit, set, or lot are not grouped and delivered in a single shipment. This creates potential contract administration issues with inspection, acceptance, and payment. In such cases, solicitations should be structured to allow offerors to provide information about products that may not have been known to the Government prior to solicitation and propose an alternate line item structure as long as the alternate is consistent with the requirements of 204.71, which provides explicit guidance on the use of contract line items and subline items, and with PGI 204.71.

204.7103-2 Numbering procedures. Follow the procedures at PGI 204.7103-2 for numbering contract line items.

204.7104 Contract subline items.
204.7104-1 Criteria for establishing.
Contract subline items provide flexibility to further identify elements within a contract line item for tracking performance or simplifying administration. There are only two kinds of subline items: those which are informational in nature and those which consist of more than one item that requires separate identification.

(a) Informational subline items.

(1) This type of subline item identifies information that relates directly to the contract line item and is an integral part of it (e.g., parts of an assembly or parts of a kit). These subline items shall not be scheduled separately for delivery, identified separately for shipment or performance, or priced separately for payment purposes.

(2) The informational subline item may include quantities, prices, or amounts, if necessary to satisfy management requirements. However, these elements shall be included within the item description in the supplies/services column and enclosed in parentheses to prevent confusing them with quantities, prices, or amounts that have contractual significance. Do not enter these elements in the quantity and price columns.

(3) Informational subline items shall be used to identify each accounting classification citation assigned to a single contract line item number when use of multiple citations is authorized (see 204.7103-1(a)(4)(ii)).

(b) Separately identified subline items.

(1) Subline items will be used instead of contract line items to facilitate payment, delivery tracking, contract funds accounting, or other management purposes. Such subline items shall be used when items bought under one contract line item number—

(i) Are to be paid for from more than one accounting classification. A subline item shall be established for the quantity associated with the single accounting classification citation. Establish a line item rather than a subline item if it is likely that a subline item may be assigned additional accounting classification citations at a later date. Identify the funding as described in 204.7104-1(a)(3);

(ii) Are to be packaged in different sizes, each represented by its own NSN;

(iii) Have collateral costs, such as packaging costs, but those costs are not a part of the unit price of the contract line item;

(iv) Have different delivery dates or destinations or requisitions, or a combination of the three; or

(v) Identify parts of an assembly or kit which—

(A) Have to be separately identified at the time of shipment or performance; and

(B) Are separately priced.
(2) Each separately identified contract subline item shall have its own—

(i) Delivery schedule, period of performance, or completion date;

(ii) Unit price or single total price or amount (not separately priced (NSP) is acceptable as an entry for price or amount if the price is included in another subline item or a different contract line item). This requirement does not apply—

(A) If the subline item was created to refer to an exhibit or an attachment. If management needs dictate that a unit price be entered, the price shall be set forth in the item description block of the schedule and enclosed in parentheses; or

(B) In the case of indefinite delivery contracts described at 204.7103-1(a)(1)(vi).

(iii) Identification (e.g., NSN, item description, manufacturer's part number, scope of work, description of services).

(3) Unit prices and extended amounts.

(i) The unit price and total amount for all subline items may be entered at the contract line item number level if the unit price for the subline items is identical. If there is any variation, the subline item unit prices shall be entered at the subline item level only.

(ii) The unit price and extended amounts may be entered at the subline items level.

(iii) The two methods in paragraphs (b)(3)(i) and (ii) of this section shall not be combined in a contract line item.

(iv) When the price for items not separately priced is included in the price of another contract line or subline item, it may be necessary to withhold payment on the priced contract line or subline item until the included line or subline items that are not separately priced have been delivered. See the clause at 252.204-7002, Payment for Contract Line or Subline Items Not Separately Priced.

204.7104-2 Numbering procedures.
Follow the procedures at PGI 204.7104-2 for numbering contract subline items.

204.7105 Contract exhibits and attachments.
Follow the procedures at PGI 204.7105 for use and numbering of contract exhibits and attachments.

204.7106 Contract modifications.

(a) If new items are added, assign new contract line or subline item numbers or exhibit line item numbers, in accordance with the procedures established at 204.7103, 204.7104, and 204.7105.

(b) Modifications to existing contract line items or exhibit line items.
(1) If the modification relates to existing contract line items or exhibit line items, the modification shall refer to those item numbers.

(2) If the contracting officer decides to assign new identifications to existing contract or exhibit line items, the following rules apply—

(i) *Definitized and undefinitized items.*

(A) The original line item or subline item number may be used if the modification applies to the total quantity of the original line item or subline.

(B) The original line item or subline item number may be used if the modification makes only minor changes in the specifications of some of the items ordered on the original line item or subline item and the resulting changes in unit price can be averaged to provide a new single unit price for the total quantity. If the changes in the specifications make the item significantly distinguishable from the original item or the resulting changes in unit price cannot be averaged, create a new line item.

(C) If the modification affects only a partial quantity of an existing contract line item or subline item or exhibit line item and the change does not involve either the delivery date or the ship-to/mark-for data, the original contract line item or subline item or exhibit line item number shall remain with the unchanged quantity. Assign the changed quantity the next available number.

(ii) *Undefinitized items.* In addition to the rules in paragraph (b)(2)(i), the following additional rules apply to undefinitized items—

(A) If the modification is undefinitized and increases the quantity of an existing definitized item, assign the undefinitized quantity the next available number.

(B) If the modification increases the quantity of an existing undefinitized item, the original contract line item or subline item or exhibit line item may be used if the unit price for the new quantity is expected to be the same as the price for the original quantity. If the unit prices of the two quantities will be different, assign the new quantity the next available number.

(C) If the modification both affects only a partial quantity of the existing contract line item or subline item or exhibit line item and definitizes the price for the affected portion, the definitized portion shall retain the original item number. If there is any undefinitized portion of the item, assign it the next available number. However, if the modification definitizes the price for the whole quantity of the line item, and price impact of the changed work can be apportioned equally over the whole to arrive at a new unit price, the quantity with the changes can be added into the quantity of the existing item.

(D) If the modification affects only a partial quantity of an existing contract line item or subline item or exhibit line item, but does not change the delivery schedule or definitize price, the unchanged portion shall retain the original contract line item or subline item or exhibit line item number. Assign the changed portion the next available number.

(3) If the modification will decrease the amount obligated—
(i) There shall be coordination between the administrative and procuring contracting offices before issuance of the modification; and

(ii) The contracting officer shall not issue the modification unless sufficient unliquidated obligation exists or the purpose is to recover monies owed to the Government.

(k) Use the clause at 252.229-7014, Taxes—Foreign Contracts in Afghanistan, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, with performance in Afghanistan, unless the clause at 252.229-7015 is used.

(l) Use the clause at 252.229-7015, Taxes—Foreign Contracts in Afghanistan (North Atlantic Treaty Organization Status of Forces Agreement), instead of the clause at 252.229-7014, Taxes—Foreign Contracts in Afghanistan, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, with performance in Afghanistan awarded on behalf of the North Atlantic Treaty Organization (NATO), which are governed by the NATO Status of Forces Agreement (SOFA), if approval from the Director, Defense Procurement and Acquisition Policy, Office of the Under Secretary of Defense for Acquisition, Technology, and Logistics, has been obtained prior to each use.

232.001 Definitions.
“Incremental funding” means the partial funding of a contract or an exercised option, with additional funds anticipated to be provided at a later time.

232.006 Reduction or suspension of contract payments upon finding of fraud.

232.006-5 Reporting.
Departments and agencies, in accordance with department/agency procedures, shall prepare and submit to the Under Secretary of Defense (Acquisition, Technology, and Logistics), through the Director of Defense Procurement and Acquisition Policy, annual reports (Report Control Symbol DD-AT&L(A)1891) containing the information required by FAR 32.006-5.

232.007 Contract financing payments.
(a) DoD policy is to make contract financing payments as quickly as possible. Generally, the contracting officer shall insert the standard due dates of 7 days for progress payments, and 14 days for performance-based payments and interim payments on cost-type contracts, in the appropriate paragraphs of the respective payment clauses. For interim payments on cost-reimbursement contracts for services, see 232.906(a)(i).

(b) The contracting officer should coordinate contract financing payment terms with offices that will be involved in the payment process to ensure that specified terms can be met. Where justified, the contracting officer may insert a due date greater than, but not less than, the standard. In determining payment terms, consider—

(i) Geographical separation;

(ii) Workload;

(iii) Contractor ability to submit a proper request; and

(iv) Other factors that could affect timing of payment.

232.009 Providing accelerated payments to small business subcontractors.

232.009-1 General.
Section 852 of the National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) requires DoD to provide accelerated payments to small business contractors and subcontractors, to the fullest extent permitted by law, with a goal of 15 days.

232.009-2 Contract clause.
Use the clause at 252.232-7017, Accelerating Payments to Small Business Subcontractors—Prohibition on Fees and Consideration, in solicitations and contracts, including those using FAR part 12 procedures for the acquisition of
commercial items, that include the clause at FAR 52.232-40, Providing Accelerated Payments to Small Business Subcontractors.

232.070 Responsibilities.

(a) The Director of Defense Procurement and Acquisition Policy, Office of the Under Secretary of Defense (Acquisition, Technology, and Logistics) (OUSD(AT&L)DPAP) is responsible for ensuring uniform administration of DoD contract financing, including DoD contract financing policies and important related procedures. Agency discretion under FAR Part 32 is at the DoD level and is not delegated to the departments and agencies. Proposals by the departments and agencies, to exercise agency discretion, shall be submitted to OUSD(AT&L)DPAP.

(b) Departments and agencies are responsible for their day-to-day contract financing operations. Refer specific cases involving financing policy or important procedural issues to OUSD(AT&L)DPAP for consideration through the department/agency Contract Finance Committee members (also see Subpart 201.4 for deviation request and approval procedures).

(c) See PGI 232.070 for information on department/agency contract financing offices.

232.071 Reserved.

232.072 Financial responsibility of contractors.
Use the policies and procedures in this section in determining the financial capability of current or prospective contractors.

232.072-1 Required financial reviews.
The contracting officer shall perform a financial review when the contracting officer does not otherwise have sufficient information to make a positive determination of financial responsibility. In addition, the contracting officer shall consider performing a financial review—

(a) Prior to award of a contract, when—

(1) The contractor is on a list requiring preaward clearance or other special clearance before award;

(2) The contractor is listed on the Consolidated List of Contractors Indebted to the Government (Hold-Up List), or is otherwise known to be indebted to the Government;

(3) The contractor may receive Government assets such as contract financing payments or Government property;

(4) The contractor is experiencing performance difficulties on other work; or

(5) The contractor is a new company or a new supplier of the item.

(b) At periodic intervals after award of a contract, when—
(1) Any of the conditions in paragraphs (a)(2) through (a)(5) of this subsection are applicable; or

(2) There is any other reason to question the contractor’s ability to finance performance and completion of the contract.

232.072-2 Appropriate information.

(a) The contracting officer shall obtain the type and depth of financial and other information that is required to establish a contractor’s financial capability or disclose a contractor’s financial condition. While the contracting officer should not request information that is not necessary for protection of the Government’s interests, the contracting officer must insist upon obtaining the information that is necessary. The unwillingness or inability of a contractor to present reasonably requested information in a timely manner, especially information that a prudent business person would be expected to have and to use in the professional management of a business, may be a material fact in the determination of the contractor’s responsibility and prospects for contract completion.

(b) The contracting officer shall obtain the following information to the extent required to protect the Government’s interest. In addition, if the contracting officer concludes that information not listed in paragraphs (b)(1) through (b)(10) of this subsection is required to comply with 232.072-1, that information should be requested. The information must be for the person(s) who are legally liable for contract performance. If the contractor is not a corporation, the contracting officer shall obtain the required information for each individual/joint venturer/partner:

(1) Balance sheet and income statement—

(i) For the current fiscal year (interim);

(ii) For the most recent fiscal year and, preferably, for the 2 preceding fiscal years. These should be certified by an independent public accountant or by an appropriate officer of the firm; and

(iii) Forecasted for each fiscal year for the remainder of the period of contract performance.

(2) Summary history of the contractor and its principal managers, disclosing any previous insolvencies--corporate or personal, and describing its products or services.

(3) Statement of all affiliations disclosing—

(i) Material financial interests of the contractor;

(ii) Material financial interests in the contractor;

(iii) Material affiliations of owners, officers, directors, major stockholders; and

(iv) The major stockholders if the contractor is not a widely-traded, publicly-held corporation.
(4) Statement of all forms of compensation to each officer, manager, partner, joint venturer, or proprietor, as appropriate—
   (i) Planned for the current year;
   (ii) Paid during the past 2 years; and
   (iii) Deferred to future periods.

(5) Business base and forecast that—
   (i) Shows, by significant markets, existing contracts and outstanding offers, including those under negotiation; and
   (ii) Is reconcilable to indirect cost rate projections.

(6) Cash forecast for the duration of the contract (see 232.072-3).

(7) Financing arrangement information that discloses—
   (i) Availability of cash to finance contract performance;
   (ii) Contractor’s exposure to financial crisis from creditor’s demands;
   (iii) Degree to which credit security provisions could conflict with Government title terms under contract financing;
   (iv) Clearly stated confirmations of credit with no unacceptable qualifications; and
   (v) Unambiguous written agreement by a creditor if credit arrangements include deferred trade payments or creditor subordinations/repayment suspensions.

(8) Statement of all state, local, and Federal tax accounts, including special mandatory contributions, e.g., environmental superfund.

(9) Description and explanation of the financial effect of issues such as—
   (i) Leases, deferred purchase arrangements, or patent or royalty arrangements;
   (ii) Insurance, when relevant to the contract;
   (iii) Contemplated capital expenditures, changes in equity, or contractor debt load;
   (iv) Pending claims either by or against the contractor;
   (v) Contingent liabilities such as guarantees, litigation, environmental, or product liabilities;
(vi) Validity of accounts receivable and actual value of inventory, as assets; and

(vii) Status and aging of accounts payable.

(10) Significant ratios such as—

(i) Inventory to annual sales;

(ii) Inventory to current assets;

(iii) Liquid assets to current assets;

(iv) Liquid assets to current liabilities;

(v) Current assets to current liabilities; and

(vi) Net worth to net debt.

232.072-3 Cash flow forecasts.

(a) A contractor must be able to sustain a sufficient cash flow to perform the contract. When there is doubt regarding the sufficiency of a contractor’s cash flow, the contracting officer should require the contractor to submit a cash flow forecast covering the duration of the contract.

(b) A contractor’s inability or refusal to prepare and provide cash flow forecasts or to reconcile actual cash flow with previous forecasts is a strong indicator of serious managerial deficiencies or potential contract cost or performance problems.

(c) Single or one-time cash flow forecasts are of limited forecasting power. As such, they should be limited to preaward survey situations. Reliability of cash flow forecasts can be established only by comparing a series of previous actual cash flows with the corresponding forecasts and examining the causes of any differences.

(d) Cash flow forecasts must—

(1) Show the origin and use of all material amounts of cash within the entire business unit responsible for contract performance, period by period, for the length of the contract (or until the risk of a cash crisis ends); and

(2) Provide an audit trail to the data and assumptions used to prepare it.

(e) Cash flow forecasts can be no more reliable than the assumptions on which they are based. Most important of these assumptions are—

(1) Estimated amounts and timing of purchases and payments for materials, parts, components, subassemblies, and services;

(2) Estimated amounts and timing of payments for purchase or production of capital assets, test facilities, and tooling;
(3) Amounts and timing of fixed cash charges such as debt installments, interest, rentals, taxes, and indirect costs;

(4) Estimated amounts and timing of payments for projected labor, both direct and indirect;

(5) Reasonableness of projected manufacturing and production schedules;

(6) Estimated amounts and timing of billings to customers (including progress payments), and customer payments;

(7) Estimated amounts and timing of cash receipts from lenders or other credit sources, and liquidation of loans; and

(8) Estimated amounts and timing of cash receipts from other sources.

(f) The contracting officer should review the assumptions underlying the cash flow forecasts. In determining whether the assumptions are reasonable and realistic, the contracting officer should consult with—

(1) The contractor;

(2) Government personnel in the areas of finance, engineering, production, cost, and price analysis; or

(3) Prospective supply, subcontract, and loan or credit sources.
232.404 Exclusions.

(a)(9) The requirements of FAR Subpart 32.4 do not apply to advertisements in high school and college publications for military recruitment efforts under 10 U.S.C. 503 when the contract cost does not exceed the micro-purchase threshold.

232.409 Contracting officer action.

232.409-1 Recommendation for approval.
Follow the procedures at PGI 232.409-1 for preparation of the documents required by FAR 32.409-1(e) and (f).

232.410 Findings, determination, and authorization.
If an advance payment procedure is used without a special bank account, follow the procedures at PGI 232.410.

232.412 Contract clause.

232.412-70 Additional clauses.

(a) Use the clause at 252.232-7000, Advance Payment Pool, in any contract that will be subject to the terms of an advance payment pool agreement with a nonprofit organization or educational institution. Normally, use the clause in all cost reimbursement type contracts with the organization or institution.

(b) Use the clause at 252.232-7005, Reimbursement of Subcontractor Advance Payments--DoD Pilot Mentor-Protege Program, when advance payments will be provided by the contractor to a subcontractor pursuant to an approved mentor-protege agreement (see subpart 219.71).

232.470 Advance payment pool.

(a) An advance payment pool agreement—

(1) Is a means of financing the performance of more than one contract held by a single contractor;

(2) Is especially convenient for the financing of cost-type contracts with nonprofit educational or research institutions for experimental or research and development work when several contracts require financing by advance payments. When appropriate, pooled advance payments may also be used to finance other types of contracts held by a single contractor; and

(3) May be established—

(i) Without regard to the number of appropriations involved;
(ii) To finance contracts for one or more department(s) or contracting activity(ies); or

(iii) In addition to any other advance payment pool agreement at a single contractor location when it is more convenient or otherwise preferable to have more than one agreement.
SUBPART 232.9—PROMPT PAYMENT
(Revised April 8, 2020)

232.901 Applicability.

(1) Except for FAR 32.908, FAR subpart 32.9, Prompt Payment, does not apply when-

(i) There is-

(A) An emergency, as defined in the Disaster Relief Act of 1974;

(B) A contingency operation (see FAR 2.101(b)); or

(C) The release or threatened release of hazardous substances (as defined in 4 U.S.C. 9606, section 106);

(ii) The head of the contracting activity has made a determination, after consultation with the cognizant comptroller, that conditions exist that limit normal business operations; and

(iii) Payments will be made in the operational area or made contingent upon receiving supporting documentation (i.e., contract, invoice, and receiving report) from the operational area.

(2) Criteria limiting normal business operations during emergencies and contingency operations that restrict the use of FAR 32.9 may include such conditions as—

(i) Support infrastructure, hardware, communications capabilities, and bandwidth are not consistently available such that normal business operations can be carried out;

(ii) Support resources, facilities, and banking needs are not consistently available for use as necessary in carrying out normal business operations;

(iii) Military mission priorities override the availability of appropriately skilled personnel in support of back-office operations;

(iv) Mobility impairments and security concerns restrict free movement of personnel and documents necessary for timely processing;

(v) Foreign vendors are not familiar with or do not understand DoD contract requirements (i.e., proper invoice, receiving documentation, and contracting terms); or

(vi) Documents received in support of payment requests and shipments require language translations that cannot be performed and documented within normal business processing times.
(3) Subsequent Determinations. The head of the contracting activity shall make subsequent determinations, after consultation with the cognizant comptroller, as the operational area evolves into either a more stable or less stable environment.

(i) If the head of the contracting activity determines that the operational area has evolved into a more stable environment, the contracting officer shall notify, by issuance of a contract modification, each contractor performing in the operational area under review. The modification deactivates this clause 252.232-7011 and activates the applicable FAR Prompt Payment clause in the contract.

(ii) If after deactivation of this clause, the head of the contracting activity subsequently determines that the operational area has evolved into a less stable environment, the head of the contracting activity will make a determination that conditions exist that limit normal business operations. The contracting officer will then reactivate this clause 252.232-7011 by issuance of a contract modification.

232.903 Responsibilities.
In accordance with section 852 of the National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232), DoD shall assist small business concerns by providing payment as quickly as possible, to the fullest extent permitted by law, with a goal of 15 days after receipt of proper invoices and all required documentation, including acceptance, and before normal payment due dates established in the contract (see 232.906(a)).

See DoD Class Deviation 2014-O0015-Update to Accelerated Payments to Small Businesses, dated April 15, 2014. This deviation is effective until modification of all DoD entitlement and payment systems to accommodate accelerated payments is completed, or until superseded or rescinded.

232.904 Determining payment due dates.

(d) In most cases, Government acceptance or approval can occur within the 7-day constructive acceptance period specified in the FAR Prompt Payment clauses. Government payment of construction progress payments can, in most cases, be made within the 14-day period allowed by the Prompt Payment for Construction Contracts clause. While the contracting officer may specify a longer period because the period specified in the contract is not reasonable or practical, such change should be coordinated with the Government offices responsible for acceptance or approval and for payment. Reasons for specifying a longer period include but are not limited to: the nature of the work or supplies or services, inspection or testing requirements, shipping and acceptance terms, and resources available at the acceptance activity. A constructive acceptance period of less than the cited 7 or 14 days is not authorized.

232.905 Payment documentation and process.

(b)(1)(iii) For task and delivery orders numbered in accordance with FAR 4.1603 and 204.1603, the 13-character order number may serve as the contract number on invoices and receiving reports. The contract or agreement number under which the order was placed may be omitted from invoices and receiving reports. The contractor may choose to identify both the contract number and the 13-character order number on invoices and receiving reports. Task and delivery orders numbered with a four-position
alpha-numeric call or order serial number shall include both the 13-position basic contract Procurement Instrument Identifier and the four-position order number.

232.906 Making payments.

(a)(i) Generally, the contracting officer shall insert the standard due date of 14 days for interim payments on cost-reimbursement contracts for services in the clause at FAR 52.232-25, Prompt Payment, when using the clause with its Alternate I.

(ii) The restrictions of FAR 32.906 prohibiting early payment do not apply to invoice payments made to small business concerns. However, contractors shall not be entitled to interest penalties if the Government fails to make early payment.

232.908 Contract clauses.
Use the clause at 252.232-7011, Payments in Support of Emergencies and Contingency Operations, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, in acquisitions that meet the applicability criteria at 232.901(1). Use of this clause is in addition to use of either the approved Payment clause prescribed in FAR 32.908 or the clause at FAR 52.212-4, Contract Terms and Conditions—Commercial Items.
232.1001 Policy.

(a) As with all contract financing, the purpose of performance-based payments is to assist the contractor in the payment of costs incurred during the performance of the contract. See PGI 232.1001(a) for additional information on use of performance-based payments. However, in accordance with 10 U.S.C. 2307(b)(2), performance-based payments shall not be conditioned upon costs incurred in contract performance, but on the achievement of performance outcomes. Subject to the criteria in 232.1003-70, all companies, including nontraditional defense contractors, are eligible for performance-based payments, consistent with best commercial practices.

(d) The contracting officer shall use the following standard payment terms for performance-based payments: The contractor entitlement date, if any, specified in the contract, or 14 days after receipt by the designated billing office of a proper request for payment, whichever is later.

232.1003-70 Criteria for use.
In accordance with 10 U.S.C. 2307(b)(4)(A), a contractor's financial statements shall be in compliance with Generally Accepted Accounting Principles, in order to receive performance-based payments. 10 U.S.C. 2307(b)(4)(B) specifies that it does not grant the Defense Contract Audit Agency the authority to audit compliance with Generally Accepted Accounting Principles.

232.1004 Procedures.

(b) Establishing performance-based finance payment amounts.

(i) The contracting officer should include in a solicitation both the progress payments and performance-based payments provisions and clauses prescribed in this part, when considering both types of payment methods. Only one type of financing will be included in the resultant contract, except as may be authorized on separate orders subject to FAR 32.1003(c)).

(A) When considering performance-based payments, obtain from the offeror/contractor a proposed performance-based payments schedule that includes all performance-based payments events, completion criteria and event values along with the projected monthly expenditure profile in order to negotiate the value of the performance events such that the performance-based payments are not expected to result in an unreasonably low or negative level of contractor investment in the contract. If performance-based payments are deemed practical, the Government will evaluate and negotiate the details of the performance-based payments schedule.
(B) For modifications to contracts that already use performance-based payments financing, the basis for negotiation must include performance-based payments. The PBP analysis tool will be used in the same manner to help determine the price for the modification;

(iii) The contracting officer shall document in the contract file that the performance-based payment schedule provides a mutually beneficial settlement position that reflects adequate consideration to the Government for the improved contractor cash flow.

(c) Instructions for multiple appropriations. If the contract contains foreign military sales requirements, the contracting officer shall provide instructions for distribution of the contract financing payments to each country’s account.

232.1005-70 Solicitation provisions and contract clauses.

(a) The contracting officer shall include the following clauses with appropriate fill-ins in solicitations and contracts that include performance-based payments:

(1) For performance-based payments made on a whole-contract basis, use the clause at 252.232-7012, Performance-Based Payments—Whole-Contract Basis.

(2) For performance-based payments made on a deliverable-item basis, use the clause at 252.232-7013, Performance-Based Payments–Deliverable-Item Basis.

(b) Use the provision at 252.232-7015, Performance-Based Payments–Representation, in solicitations where the resulting contract may include performance-based payments.

(c) Use the provision at 252.232-7016, Notice of Progress Payments or Performance-Based Payments, in lieu of FAR 52.232-13, Notice of Progress Payments, when the solicitation contains clauses for progress payments and performance-based payments (only one type of financing will be included in the resultant contract, except as may be authorized on separate orders subject to FAR 32.1003(c)).

(b) The security requirements required by contract clause 252.204-7012, shall be implemented for all covered defense information on all covered contractor information systems that support the performance of this contract.

(c) For covered contractor information systems that are not part of an information technology service or system operated on behalf of the Government (see 252.204-7012(b)(2)—

(1) By submission of this offer, the Offeror represents that it will implement the security requirements specified by National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171 “Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations” (see http://dx.doi.org/10.6028/NIST.SP.800-171) that are in effect at the time the solicitation is issued or as authorized by the contracting officer not later than December 31, 2017.

252.204-7009 Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.

As prescribed in 204.7304(b), use the following clause:

**LIMITATIONS ON THE USE OR DISCLOSURE OF THIRD-PARTY CONTRACTOR REPORTED CYBER INCIDENT INFORMATION (OCT 2016)**

(a) **Definitions.** As used in this clause—

“Compromise” means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or
unintentional disclosure, modification, destruction, or loss of an object, or the copying of
information to unauthorized media may have occurred.

“Controlled technical information” means technical information with military or
space application that is subject to controls on the access, use, reproduction,
modification, performance, display, release, disclosure, or dissemination. Controlled
technical information would meet the criteria, if disseminated, for distribution
statements B through F using the criteria set forth in DoD Instruction 5230.24,
Distribution Statements on Technical Documents. The term does not include
information that is lawfully publicly available without restrictions.

“Covered defense information” means unclassified controlled technical
information or other information (as described in the Controlled Unclassified
Information (CUI) Registry at http://www.archives.gov/cui/registry/category-list.html)
that requires safeguarding or dissemination controls pursuant to and consistent with
law, regulations, and Governmentwide policies, and is—

1. Marked or otherwise identified in the contract, task order, or delivery order
and provided to the contractor by or on behalf of DoD in support of the performance
of the contract; or

2. Collected, developed, received, transmitted, used, or stored by or on
behalf of the contractor in support of the performance of the contract.

“Cyber incident” means actions taken through the use of computer networks that
result in a compromise or an actual or potentially adverse effect on an information
system and/or the information residing therein.

“Information system” means a discrete set of information resources organized for the
collection, processing, maintenance, use, sharing, dissemination, or disposition of
information.

“Media” means physical devices or writing surfaces including, but is not limited to,
magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and
printouts onto which covered defense information is recorded, stored, or printed within
a covered contractor information system.

“Technical information” means technical data or computer software, as those terms
are defined in the clause at DFARS 252.227-7013, Rights in Technical Data-
Noncommercial Items, regardless of whether or not the clause is incorporated in this
solicitation or contract. Examples of technical information include research and
engineering data, engineering drawings, and associated lists, specifications, standards,
process sheets, manuals, technical reports, technical orders, catalog-item identifications,
data sets, studies and analyses and related information, and computer software
executable code and source code.

(b) Restrictions. The Contractor agrees that the following conditions apply to any
information it receives or creates in the performance of this contract that is information
obtained from a third-party’s reporting of a cyber incident pursuant to DFARS clause
252.204-7012, Safeguarding Covered Defense Information and Cyber Incident
Reporting (or derived from such information obtained under that clause):
(1) The Contractor shall access and use the information only for the purpose of furnishing advice or technical assistance directly to the Government in support of the Government’s activities related to clause 252.204-7012, and shall not be used for any other purpose.

(2) The Contractor shall protect the information against unauthorized release or disclosure.

(3) The Contractor shall ensure that its employees are subject to use and non-disclosure obligations consistent with this clause prior to the employees being provided access to or use of the information.

(4) The third-party contractor that reported the cyber incident is a third-party beneficiary of the non-disclosure agreement between the Government and Contractor, as required by paragraph (b)(3) of this clause.

(5) A breach of these obligations or restrictions may subject the Contractor to—

   (i) Criminal, civil, administrative, and contractual actions in law and equity for penalties, damages, and other appropriate remedies by the United States; and

   (ii) Civil actions for damages and other appropriate remedies by the third party that reported the cyber incident, as a third party beneficiary of this clause.

(c) **Subcontracts.** The Contractor shall include this clause, including this paragraph (c), in subcontracts, or similar contractual instruments, for services that include support for the Government’s activities related to safeguarding covered defense information and cyber incident reporting, including subcontracts for commercial items, without alteration, except to identify the parties.

(End of clause)

**252.204-7010 Requirement for Contractor to Notify DoD if the Contractor’s Activities are Subject to Reporting Under the U.S.-International Atomic Energy Agency Additional Protocol.**

As prescribed in 204.470-3, use the following clause:

**REQUIREMENT FOR CONTRACTOR TO NOTIFY DOD IF THE CONTRACTOR’S ACTIVITIES ARE SUBJECT TO REPORTING UNDER THE U.S.-INTERNATIONAL ATOMIC ENERGY AGENCY ADDITIONAL PROTOCOL (JAN 2009)**

(a) If the Contractor is required to report any of its activities in accordance with Department of Commerce regulations (15 CFR Part 781 et seq.) or Nuclear Regulatory Commission regulations (10 CFR Part 75) in order to implement the declarations required by the U.S.-International Atomic Energy Agency Additional Protocol (U.S.-IAEA AP), the Contractor shall—

   (1) Immediately provide written notification to the following DoD Program Manager:

   [Contracting Officer to insert Program Manager’s name, mailing address, e-mail]
Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(address, telephone number, and facsimile number);\]

(2) Include in the notification—

(i) Where DoD contract activities or information are located relative to the activities or information to be declared to the Department of Commerce or the Nuclear Regulatory Commission; and

(ii) If or when any current or former DoD contract activities and the activities to be declared to the Department of Commerce or the Nuclear Regulatory Commission have been or will be co-located or located near enough to one another to result in disclosure of the DoD activities during an IAEA inspection or visit; and

(3) Provide a copy of the notification to the Contracting Officer.

(b) After receipt of a notification submitted in accordance with paragraph (a) of this clause, the DoD Program Manager will—

(1) Conduct a security assessment to determine if and by what means access may be granted to the IAEA; or

(2) Provide written justification to the component or agency treaty office for a national security exclusion, in accordance with DoD Instruction 2060.03, Application of the National Security Exclusion to the Agreements Between the United States of America and the International Atomic Energy Agency for the Application of Safeguards in the United States of America. DoD will notify the Contractor if a national security exclusion is applied at the Contractor’s location to prohibit access by the IAEA.

(c) If the DoD Program Manager determines that a security assessment is required—

(1) DoD will, at a minimum—

(i) Notify the Contractor that DoD officials intend to conduct an assessment of vulnerabilities to IAEA inspections or visits;

(ii) Notify the Contractor of the time at which the assessment will be conducted, at least 30 days prior to the assessment;

(iii) Provide the Contractor with advance notice of the credentials of the DoD officials who will conduct the assessment; and

(iv) To the maximum extent practicable, conduct the assessment in a manner that does not impede or delay operations at the Contractor’s facility; and

(2) The Contractor shall provide access to the site and shall cooperate with DoD officials in the assessment of vulnerabilities to IAEA inspections or visits.

(d) Following a security assessment of the Contractor’s facility, DoD officials will notify the Contractor as to—
(1) Whether the Contractor’s facility has any vulnerabilities where potentially declarable activities under the U.S.-IAEA AP are taking place;

(2) Whether additional security measures are needed; and

(3) Whether DoD will apply a national security exclusion.

(e) If DoD applies a national security exclusion, the Contractor shall not grant access to IAEA inspectors.

(f) If DoD does not apply a national security exclusion, the Contractor shall apply managed access to prevent disclosure of program activities, locations, or information in the U.S. declaration.

(g) The Contractor shall not delay submission of any reports required by the Department of Commerce or the Nuclear Regulatory Commission while awaiting a DoD response to a notification provided in accordance with this clause.

(h) The Contractor shall incorporate the substance of this clause, including this paragraph (h), in all subcontracts that are subject to the provisions of the U.S.-IAEA AP.

(End of clause)

252.204-7011 Reserved.

252.204-7012 Safeguarding Covered Defense Information and Cyber Incident Reporting.
As prescribed in 204.7304(c), use the following clause:

SAFEGUARDING COVERED DEFENSE INFORMATION AND CYBER INCIDENT REPORTING (DEC 2019)

(a) Definitions. As used in this clause—

“Adequate security” means protective measures that are commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of information.

“Compromise” means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

“Contractor attributional/proprietary information” means information that identifies the contractor(s), whether directly or indirectly, by the grouping of information that can be traced back to the contractor(s) (e.g., program description, facility locations), personally identifiable information, as well as trade secrets, commercial or financial information, or other commercially sensitive information that is not customarily shared outside of the company.
“Controlled technical information” means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

“Covered contractor information system” means an unclassified information system that is owned, or operated by or for, a contractor and that processes, stores, or transmits covered defense information.

“Covered defense information” means unclassified controlled technical information or other information, as described in the Controlled Unclassified Information (CUI) Registry at http://www.archives.gov/cui/registry/category-list.html, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies, and is—

(1) Marked or otherwise identified in the contract, task order, or delivery order and provided to the contractor by or on behalf of DoD in support of the performance of the contract; or

(2) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract.

“Cyber incident” means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

“Forensic analysis” means the practice of gathering, retaining, and analyzing computer-related data for investigative purposes in a manner that maintains the integrity of the data.

“Information system” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

“Malicious software” means computer software or firmware intended to perform an unauthorized process that will have adverse impact on the confidentiality, integrity, or availability of an information system. This definition includes a virus, worm, Trojan horse, or other code-based entity that infects a host, as well as spyware and some forms of adware.

“Media” means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which covered defense information is recorded, stored, or printed within a covered contractor information system.

“Operationally critical support” means supplies or services designated by the Government as critical for airlift, sealift, intermodal transportation services, or logistical support that is essential to the mobilization, deployment, or sustainment of the Armed Forces in a contingency operation.
“Rapidly report” means within 72 hours of discovery of any cyber incident.

“Technical information” means technical data or computer software, as those terms are defined in the clause at DFARS 252.227-7013, Rights in Technical Data—Noncommercial Items, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

(b) Adequate security. The Contractor shall provide adequate security on all covered contractor information systems. To provide adequate security, the Contractor shall implement, at a minimum, the following information security protections:

(1) For covered contractor information systems that are part of an Information Technology (IT) service or system operated on behalf of the Government, the following security requirements apply:

   (i) Cloud computing services shall be subject to the security requirements specified in the clause 252.239-7010, Cloud Computing Services, of this contract.

   (ii) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract.

(2) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1) of this clause, the following security requirements apply:

   (i) Except as provided in paragraph (b)(2)(ii) of this clause, the covered contractor information system shall be subject to the security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, “Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations” (available via the internet at http://dx.doi.org/10.6028/NIST.SP.800-171) in effect at the time the solicitation is issued or as authorized by the Contracting Officer.

   (ii)(A) The Contractor shall implement NIST SP 800-171, as soon as practical, but not later than December 31, 2017. For all contracts awarded prior to October 1, 2017, the Contractor shall notify the DoD Chief Information Officer (CIO), via email at osd.dibcsia@mail.mil, within 30 days of contract award, of any security requirements specified by NIST SP 800-171 not implemented at the time of contract award.

   (B) The Contractor shall submit requests to vary from NIST SP 800-171 in writing to the Contracting Officer, for consideration by the DoD CIO. The Contractor need not implement any security requirement adjudicated by an authorized representative of the DoD CIO to be nonapplicable or to have an alternative, but equally effective, security measure that may be implemented in its place.
(C) If the DoD CIO has previously adjudicated the contractor’s requests indicating that a requirement is not applicable or that an alternative security measure is equally effective, a copy of that approval shall be provided to the Contracting Officer when requesting its recognition under this contract.

(D) If the Contractor intends to use an external cloud service provider to store, process, or transmit any covered defense information in performance of this contract, the Contractor shall require and ensure that the cloud service provider meets security requirements equivalent to those established by the Government for the Federal Risk and Authorization Management Program (FedRAMP) Moderate baseline (https://www.fedramp.gov/resources/documents/) and that the cloud service provider complies with requirements in paragraphs (c) through (g) of this clause for cyber incident reporting, malicious software, media preservation and protection, access to additional information and equipment necessary for forensic analysis, and cyber incident damage assessment.

(3) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraphs (b)(1) and (2) of this clause, may be required to provide adequate security in a dynamic environment or to accommodate special circumstances (e.g., medical devices) and any individual, isolated, or temporary deficiencies based on an assessed risk or vulnerability. These measures may be addressed in a system security plan.

(c) Cyber incident reporting requirement.

(1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor’s ability to perform the requirements of the contract that are designated as operationally critical support and identified in the contract, the Contractor shall—

(i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other information systems on the Contractor’s network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor’s ability to provide operationally critical support; and

(2) Cyber incident report. The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at https://dibnet.dod.mil.

(3) Medium assurance certificate requirement. In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see https://public.cyber.mil/eca/.
(d) **Malicious software.** When the Contractor or subcontractors discover and isolate malicious software in connection with a reported cyber incident, submit the malicious software to DoD Cyber Crime Center (DC3) in accordance with instructions provided by DC3 or the Contracting Officer. Do not send the malicious software to the Contracting Officer.

(e) **Media preservation and protection.** When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (c)(1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

(f) **Access to additional information or equipment necessary for forensic analysis.** Upon request by DoD, the Contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.

(g) **Cyber incident damage assessment activities.** If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (e) of this clause.

(h) **DoD safeguarding and use of contractor attributional/proprietary information.** The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph (c). To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released.

(i) **Use and release of contractor attributional/proprietary information not created by or for DoD.** Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD—

   (1) To entities with missions that may be affected by such information;

   (2) To entities that may be called upon to assist in the diagnosis, detection, or mitigation of cyber incidents;

   (3) To Government entities that conduct counterintelligence or law enforcement investigations;

Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.

(i) **Use and release of contractor attributional/proprietary information created by or for DoD.** Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph (c) of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph (i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government’s use and release of such information.

(k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data.

(l) **Other safeguarding or reporting requirements.** The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor’s responsibility for other safeguarding or cyber incident reporting pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements.

(m) **Subcontracts.** The Contractor shall—

(1) Include this clause, including this paragraph (m), in subcontracts, or similar contractual instruments, for operationally critical support, or for which subcontract performance will involve covered defense information, including subcontracts for commercial items, without alteration, except to identify the parties. The Contractor shall determine if the information required for subcontractor performance retains its identity as covered defense information and will require protection under this clause, and, if necessary, consult with the Contracting Officer; and

(2) Require subcontractors to—

(i) Notify the prime Contractor (or next higher-tier subcontractor) when submitting a request to vary from a NIST SP 800-171 security requirement to the Contracting Officer, in accordance with paragraph (b)(2)(ii)(B) of this clause; and

(B) The end product is a COTS item.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) This clause implements 41 U.S.C chapter 83, Buy American. In accordance with 41 U.S.C. 1907, the component test of the Buy American statute is waived for an end product that is a COTS item (see section 12.505(a)(1) of the Federal Acquisition Regulation). Unless otherwise specified, this clause applies to all line items in the contract.

(c) The Contractor shall deliver only domestic end products unless, in its offer, it specified delivery of other end products in the Buy American—Balance of Payments Program Certificate provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product, the Contractor shall deliver a qualifying country end product or, at the Contractor's option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(End of clause)

Alternate I. As prescribed in 225.1101(2)(i) and (2)(iii), use the following clause, which adds “South Caucasus/Central and South Asian (SC/CASA) state” and “South Caucasus/Central and South Asian (SC/CASA) state end product” to paragraph (a), and uses different paragraphs (b) and (c) than the basic clause:
BUY AMERICAN AND BALANCE OF PAYMENTS PROGRAM—ALTERNATE I
(DEC 2017)

(a) Definitions. As used in this clause—

“Commercially available off-the-shelf (COTS) item”—

(A) A commercial item (as defined in paragraph (1) of the definition of “commercial item” in section 2.101 of the Federal Acquisition Regulation);

(B) Sold in substantial quantities in the commercial marketplace; and

(C) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(ii) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Domestic end product” means—

(i) An unmanufactured end product that has been mined or produced in the United States; or

(ii) An end product manufactured in the United States if—

(A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.
“Foreign end product” means an end product other than a domestic end product.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

- Australia

(ii) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) This clause implements the Balance of Payments Program. Unless otherwise specified, this clause applies to all line items in the contract.

(c) The Contractor shall deliver only domestic end products unless, in its offer, it specified delivery of other end products in the Buy American Balance of Payments Program Certificate provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product or an SC/CASA state end product, the Contractor shall deliver a qualifying country end product, an SC/CASA state end product, or, at the Contractor’s option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(b) Restriction. Except as provided in paragraph (c) of this clause, any specialty metals incorporated in items delivered under this contract shall be melted or produced in the United States, its outlying areas, or a qualifying country.

(c) Exceptions. The restriction in paragraph (b) of this clause does not apply to—

(1) Electronic components.

(2)(i) Commercially available off-the-shelf (COTS) items, other than—

(A) Specialty metal mill products, such as bar, billet, slab, wire, plate, or sheet, that have not been incorporated into COTS end items, subsystems, assemblies, or components;

(B) Forgings or castings of specialty metals, unless the forgings or castings are incorporated into COTS end items, subsystems, or assemblies;

(C) Commercially available high performance magnets that contain specialty metal, unless such high performance magnets are incorporated into COTS end items or subsystems; and

(ii) A COTS item is considered to be “without modification” if it is not modified prior to contractual acceptance by the next higher tier in the supply chain.

(A) Specialty metals in a COTS item that was accepted without modification by the next higher tier are excepted from the restriction in paragraph (b) of this clause, and remain excepted, even if a piece of the COTS item subsequently is removed (e.g., the end is removed from a COTS screw or an extra hole is drilled in a COTS bracket).

(B) Specialty metals that were not contained in a COTS item upon acceptance, but are added to the COTS item after acceptance, are subject to the restriction in paragraph (b) of this clause (e.g., a special reinforced handle made of specialty metal is added to a COTS item).

(C) If two or more COTS items are combined in such a way that the resultant item is not a COTS item, only the specialty metals involved in joining the COTS items together are subject to the restriction in paragraph (b) of this clause (e.g., a COTS aircraft is outfitted with a COTS engine that is not the COTS engine normally provided with the aircraft).

(D) For COTS items that are normally sold in the commercial
marketplace with various options, items that include such options are also COTS items. However, if a COTS item is offered to the Government with an option that is not normally offered in the commercial marketplace, that option is subject to the restriction in paragraph (b) of this clause (e.g. - An aircraft is normally sold to the public with an option for installation kits. The Department of Defense requests a military-unique kit. The aircraft is still a COTS item, but the military-unique kit is not a COTS item and must comply with the restriction in paragraph (b) of this clause unless another exception applies).

(3) Fasteners that are commercial items, if the manufacturer of the fasteners certifies it will purchase, during the relevant calendar year, an amount of domestically melted or produced specialty metal, in the required form, for use in the production of fasteners for sale to the Department of Defense and other customers, that is not less than 50 percent of the total amount of the specialty metal that it will purchase to carry out the production of such fasteners for all customers.

(4) Items manufactured in a qualifying country.

(5) Specialty metals for which the Government has determined in accordance with DFARS 225.7003-3 that specialty metal melted or produced in the United States, its outlying areas, or a qualifying country cannot be acquired as and when needed in—

(i) A satisfactory quality;

(ii) A sufficient quantity; and

(iii) The required form. In accordance with 10 U.S.C. 2533b(m)(4), the term “required form” in this clause refers to the form of the mill product, such as bar, billet, wire, slab, plate, or sheet, in the grade appropriate for the production of a finished end item to be delivered to the Government under this contract; or a finished component assembled into an end item to be delivered to the Government under this contract.

(6) End items containing a minimal amount of otherwise noncompliant specialty metals (i.e., specialty metals not melted or produced in the United States, an outlying area, or a qualifying country, that are not covered by one of the other exceptions in this paragraph (c)), if the total weight of such noncompliant metals does not exceed 2 percent of the total weight of all specialty metals in the end item, as estimated in good faith by the Contractor. This exception does not apply to high performance magnets containing specialty metals.

(d) Compliance for commercial derivative military articles.

(1) As an alternative to the compliance required in paragraph (b) of this clause, the Contractor may purchase an amount of domestically melted or produced specialty metals in the required form, for use during the period of contract performance in the production of the commercial derivative military article and the related commercial article, if—

(i) The Contracting Officer has notified the Contractor of the items to be delivered under this contract that have been determined by the Government to meet the definition of “commercial derivative military article”; and
(ii) For each item that has been determined by the Government to meet the
definition of “commercial derivative military article,” the Contractor has certified, as
specified in the provision of the solicitation entitled “Commercial Derivative Military
Article—Specialty Metals Compliance Certificate” (DFARS 252.225-7010), that the
Contractor and its subcontractor(s) will enter into a contractual agreement or
agreements to purchase an amount of domestically melted or produced specialty metal
in the required form, for use during the period of contract performance in the production
of each commercial derivative military article and the related commercial article, that is
not less than the Contractor’s good faith estimate of the greater of—

(A) An amount equivalent to 120 percent of the amount of specialty
metal that is required to carry out the production of the commercial derivative military
article (including the work performed under each subcontract); or

(B) An amount equivalent to 50 percent of the amount of specialty
metal that will be purchased by the Contractor and its subcontractors for use during
such period in the production of the commercial derivative military article and the
related commercial article.

(2) For the purposes of this alternative, the amount of specialty metal that is
required to carry out production of the commercial derivative military article includes
specialty metal contained in any item, including COTS items.

(e) Subcontracts.

(1) The Contractor shall exclude and reserve paragraph (d) and this paragraph
(e)(1) when flowing down this clause to subcontracts.

(2) The Contractor shall insert paragraphs (a) through (c) and this paragraph
(e)(2) of this clause in subcontracts, including subcontracts for commercial items, that
are for items containing specialty metals to ensure compliance of the end products that
the Contractor will deliver to the Government. When inserting this clause in
subcontracts, the Contractor shall—

(i) Modify paragraph (c)(6) of this clause only as necessary to facilitate
management of the minimal content exception at the prime contract level. The minimal
content exception does not apply to specialty metals contained in high-performance
magnets; and

(ii) Not further alter the clause other than to identify the appropriate parties.

(End of clause)

252.225-7010 Commercial Derivative Military Article—Specialty Metals

The offeror’s designation of an item as a “commercial derivative military article” will be subject to Government review and approval.

(c) If the offeror has listed any commercial derivative military articles in paragraph (b) of this provision, the offeror certifies that, if awarded a contract as a result of this solicitation, and if the Government approves the designation of the listed item(s) as commercial derivative military articles, the offeror and its subcontractor(s) will demonstrate that individually or collectively they have entered into a contractual agreement or agreements to purchase an amount of domestically melted or produced specialty metal in the required form, for use during the period of contract performance in the production of each commercial derivative military article and the related commercial article, that is not less than the Contractor’s good faith estimate of the greater of—

(1) An amount equivalent to 120 percent of the amount of specialty metal that is required to carry out the production of the commercial derivative military article (including the work performed under each subcontract); or

(2) An amount equivalent to 50 percent of the amount of specialty metal that will be purchased by the Contractor and its subcontractors for use during such period in the production of the commercial derivative military article and the related commercial article.

(d) For the purposes of this provision, the amount of specialty metal that is required to carry out the production of the commercial derivative military article includes specialty metal contained in any item, including commercially available off-the-shelf items, incorporated into such commercial derivative military articles.

(i) Is wholly the growth, product, or manufacture of Panama; or

“Contractors authorized to accompany the Force,” or “CAAF,” means contractor personnel, including all tiers of subcontractor personnel, who are authorized to accompany U.S. Armed Forces in applicable operations and have been afforded CAAF status through a letter of authorization. CAAF generally include all U.S. citizen n and
third-country national employees not normally residing within the operational area whose area of performance is in the direct vicinity of U.S. Armed Forces and who routinely are collocated with the U.S. Armed Forces (especially in non-permissive environments). Personnel collocated with U.S. Armed Forces shall be afforded CAAF status through a letter of authorization. In some cases, Combatant Commander subordinate commanders may designate mission-essential host nation or local national contractor employees (e.g., interpreters) as CAAF. CAAF includes contractors previously identified as contractors deploying with the U.S. Armed Forces. CAAF status does not apply to contractor personnel in support of applicable operations within the boundaries and territories of the United States.

“Designated operational area” means a geographic area designated by the combatant commander or subordinate joint force commander for the conduct or support of specified military operations.

“Designated reception site” means the designated place for the reception, staging, integration, and onward movement of contractors deploying during a contingency. The designated reception site includes assigned joint reception centers and other Service or private reception sites.

“Law of war” means that part of international law that regulates the conduct of armed hostilities. The law of war encompasses all international law for the conduct of hostilities binding on the United States or its individual citizens, including treaties and international agreements to which the United States is a party, and applicable customary international law.

“Non-CAAF” means personnel who are not designated as CAAF, such as local national (LN) employees and non-LN employees who are permanent residents in the operational area or third-country nationals not routinely residing with U.S. Armed Forces (and third-country national expatriates who are permanent residents in the operational area) who perform support functions away from the close proximity of, and do not reside with, U.S. Armed Forces. Government-furnished support to non-CAAF is typically limited to force protection, emergency medical care, and basic human needs (e.g., bottled water, latrine facilities, security, and food when necessary) when performing their jobs in the direct vicinity of U.S. Armed Forces. Non-CAAF status does not apply to contractor personnel in support of applicable operations within the boundaries and territories of the United States.

“Subordinate joint force commander” means a sub-unified commander or joint task force commander.

(b) General.

(1) This clause applies to both CAAF and non-CAAF when performing in a designated operational area outside the United States to support U.S. Armed Forces deployed outside the United States in—

(iii) Other military operations or military exercises, when designated by the
Combatant Commander or as directed by the Secretary of Defense.

(2) Contract performance in support of U.S. Armed Forces deployed outside the United States may require work in dangerous or austere conditions. Except as otherwise provided in the contract, the Contractor accepts the risks associated with required contract performance in such operations.

(3) When authorized in accordance with paragraph (j) of this clause to carry arms for personal protection, Contractor personnel are only authorized to use force for individual self-defense.

(4) Unless immune from host nation jurisdiction by virtue of an international agreement or international law, inappropriate use of force by contractor personnel supporting the U.S. Armed Forces can subject such personnel to United States or host nation prosecution and civil liability (see paragraphs (d) and (j)(3) of this clause).

(5) Service performed by Contractor personnel subject to this clause is not active duty or service under 38 U.S.C. 106 note.

(c) Support.

(1)(i) The Combatant Commander will develop a security plan for protection of Contractor personnel in locations where there is not sufficient or legitimate civil authority, when the Combatant Commander decides it is in the interests of the Government to provide security because—

(B) Effective security services are unavailable at a reasonable cost; or

(C) Threat conditions necessitate security through military means.

(ii) In appropriate cases, the Combatant Commander may provide security through military means, commensurate with the level of security provided DoD civilians.

(2)(i) Generally, CAAF will be afforded emergency medical and dental care if injured while supporting applicable operations. Additionally, non-CAAF employees who are injured while in the vicinity of U. S. Armed Forces will normally receive emergency medical and dental care. Emergency medical and dental care includes medical care situations in which life, limb, or eyesight is jeopardized. Examples of emergency medical and dental care include examination and initial treatment of victims of sexual assault; refills of prescriptions for life-dependent drugs; repair of broken bones, lacerations, infections; and traumatic injuries to the dentition. Hospitalization will be limited to stabilization and short-term medical treatment with an emphasis on return to duty or placement in the patient movement system.

(ii) When the Government provides medical treatment or transportation of Contractor personnel to a selected civilian facility, the Contractor shall ensure that the Government is reimbursed for any costs associated with such treatment or transportation.
(iii) Medical or dental care beyond this standard is not authorized.

(3) Contractor personnel must have a Synchronized Predeployment and Operational Tracker (SPOT)-generated letter of authorization signed by the Contracting Officer in order to process through a deployment center or to travel to, from, or within the designated operational area. The letter of authorization also will identify any additional authorizations, privileges, or Government support that Contractor personnel are entitled to under this contract. Contractor personnel who are issued a letter of authorization shall carry it with them at all times while deployed.

(4) Unless specified elsewhere in this contract, the Contractor is responsible for all other support required for its personnel engaged in the designated operational area under this contract.

Other sexual misconduct may constitute offenses under the Uniform Code of Military Justice, Federal law, such as the Military Extraterritorial Jurisdiction Act, or host nation laws; and

   (iii) That the offenses not covered by the Uniform Code of Military Justice may nevertheless have consequences to the contractor employees (see paragraph (h)(1) of this clause).
(4) The Contractor shall report to the appropriate investigative authorities, identified in paragraph (d)(6) of this clause, any alleged offenses under—

(a) Definitions. As used in this clause—

“Commercially available off-the-shelf (COTS) item”—

(i) Means any item of supply (including construction material) that is—

(A) A commercial item (as defined in paragraph (1) of the definition of “commercial item” in section 2.101 of the Federal Acquisition Regulation);

(B) Sold in substantial quantities in the commercial marketplace; and

(C) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(ii) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how
the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(i) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(ii) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Domestic construction material” means—

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic; or

(B) The construction material is a COTS item.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Domestic preference. This clause implements the Balance of Payments Program by providing a preference for domestic construction material. The Contractor shall use only domestic construction material in performing this contract, except for—

(1) Construction material valued at or below the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation;

(2) Information technology that is a commercial item; or

(3) The construction material or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate “none”]

(End of clause)

Failure to agree to any such equitable adjustment hereunder will be a dispute concerning a question of fact within the meaning of the clause entitled “Disputes.”

(f) The Government may at any time prior to termination allot additional funds for the performance of the contract line item(s) identified in paragraph (a) of this clause.

(g) The termination provisions of this clause do not limit the rights of the Government under the clause entitled “Default.” The provisions of this clause are limited to the work and allotment of funds for the contract line item(s) set forth in
paragraph (a) of this clause. This clause no longer applies once the contract is fully funded except with regard to the rights or obligations of the parties concerning equitable adjustments negotiated under paragraphs (d) and (e) of this clause.
