212.301 Solicitation provisions and contract clauses for the acquisition of commercial items.

See DoD Class Deviation 2018-O0021, Commercial Item Omnibus Clause for Acquisitions Using the Standard Procurement System, issued October 1, 2018. This class deviation allows the contracting officer to use the SPS clause logic capability to automatically select the clauses that are applicable to the specific solicitation and contract. The contracting officer shall ensure that the deviation clause is incorporated into these solicitations and contracts because the deviation clause fulfills the statutory requirements on auditing and subcontract clauses applicable to commercial items. The deviation also authorizes adjustments to the deviation clause required by future changes to the clause at 52.212-5 that are published in the FAR. This deviation is effective for five years, or until otherwise rescinded.

239.7400 Scope.
This subpart prescribes policy and procedures for acquisition of telecommunications services and maintenance of telecommunications security. Telecommunications services meet the definition of information technology.

239.7401 Definitions.
As used in this subpart—

“Common carrier” means any entity engaged in the business of providing telecommunications services which are regulated by the Federal Communications Commission or other governmental body.

“Foreign carrier” means any person, partnership, association, joint-stock company, trust, governmental body, or corporation not subject to regulation by a U.S. governmental regulatory body and not doing business as a citizen of the United States, providing telecommunications services outside the territorial limits of the United States.

“Governmental regulatory body” means the Federal Communications Commission, any statewide regulatory body, or any body with less than statewide jurisdiction when operating under the State authority. The following are not “governmental regulatory bodies”—

(1) Regulatory bodies whose decisions are not subject to judicial appeal; and

(2) Regulatory bodies which regulate a company owned by the same entity which creates the regulatory body.

“Long-haul telecommunications” means all general and special purpose long-distance telecommunications facilities and services (including commercial satellite services, terminal equipment, and local circuitry supporting the long-haul service) to or from the post, camp, base, or station switch and/or main distribution frame (except for trunk lines to the first-serving commercial central office for local communications services).

“Noncommon carrier” means any entity other than a common carrier offering telecommunications facilities, services, or equipment for lease.

“Securing,” “sensitive information,” and “telecommunications systems” have the meaning given in the clause at 252.239-7016, Telecommunications Security Equipment, Devices, Techniques, and Services.

“Telecommunications” means the transmission, emission, or reception of signals, signs, writing, images, sounds, or intelligence of any nature, by wire, cable, satellite, fiber optics, laser, radio, or any other electronic, electric, electromagnetic, or acoustically coupled means.
“Telecommunications services” means the services acquired, whether by lease or contract, to meet the Government's telecommunications needs. The term includes the telecommunications facilities and equipment necessary to provide such services.

239.7402 Policy.

(a) Acquisition. DoD policy is to acquire telecommunications services from common and noncommon telecommunications carriers—

(1) On a competitive basis, except when acquisition using other than full and open competition is justified;

(2) Recognizing the regulations, practices, and decisions of the Federal Communications Commission (FCC) and other governmental regulatory bodies on rates, cost principles, and accounting practices; and

(3) Making provision in telecommunications services contracts for adoption of—

(i) FCC approved practices; or

(ii) The generally accepted practices of the industry on those issues concerning common carrier services where—

(A) The governmental regulatory body has not expressed itself;

(B) The governmental regulatory body has declined jurisdiction; or

(C) There is no governmental regulatory body to decide.

(b) Security.

(1) The contracting officer shall ensure, in accordance with agency procedures, that purchase requests identify—

(i) The nature and extent of information requiring security during telecommunications;

(ii) The requirement for the contractor to secure telecommunications systems;

(iii) The telecommunications security equipment, devices, techniques, or services with which the contractor's telecommunications security equipment, devices, techniques, or services must be interoperable; and

(iv) The approved telecommunications security equipment, devices, techniques, or services, such as found in the National Security Agency's Information Systems Security Products and Services Catalogue.

(2) Contractors and subcontractors shall provide all telecommunications security techniques or services required for performance of Government contracts.
(3) Except as provided in paragraph (b)(4) of this section, contractors and subcontractors shall normally provide all required property, to include telecommunications security equipment or related devices, in accordance with FAR 45.102. In some cases, such as for communications security (COMSEC) equipment designated as controlled cryptographic item (CCI), contractors or subcontractors must also meet ownership eligibility conditions.

(4) The head of the agency may authorize provision of the necessary property as Government-furnished property or acquisition as contractor-acquired property, as long as conditions of FAR 45.102(b) are met.

(c) Foreign carriers. For information on contracting with foreign carriers, see PGI 239.7402(c).

(d) Long-haul telecommunications services. When there is a requirement for procurement of long-haul telecommunications services, follow PGI 239.7402(d).

239.7404 Reserved.

239.7405 Delegated authority for telecommunications resources. The contracting officer may enter into a telecommunications service contract on a month-to-month basis or for any longer period or series of periods, not to exceed a total of 10 years. See PGI 239.7405 for documents relating to this contracting authority, which the General Services Administration has delegated to DoD.

239.7406 Certified cost or pricing data and data other than certified cost or pricing data.

(a) Common carriers are not required to submit certified cost or pricing data before award of contracts for tariffed services. Rates or preliminary estimates quoted by a common carrier for tariffed telecommunications services are considered to be prices set by regulation within the provisions of 10 U.S.C. 2306a. This is true even if the tariff is set after execution of the contract.

(b) Rates or preliminary estimates quoted by a common carrier for nontariffed telecommunications services or by a noncommon carrier for any telecommunications service are not considered prices set by law or regulation.

(c) Contracting officers shall obtain sufficient data to determine that the prices are reasonable in accordance with FAR 15.403-3 or 15.403-4. See PGI 239.7406 for examples of instances where additional data may be necessary to determine price reasonableness.

239.7407 Type of contract.
When acquiring telecommunications services, the contracting officer may use a basic agreement (see FAR 16.702) in conjunction with communication service authorizations. When using this method, follow the procedures at PGI 239.7407.
239.7408 Special construction.

239.7408-1 General.

(a) “Special construction” normally involves a common carrier giving a special service or facility related to the performance of the basic telecommunications service requirements. This may include—

(1) Moving or relocating equipment;

(2) Providing temporary facilities;

(3) Expediting provision of facilities; or

(4) Providing specially constructed channel facilities to meet Government requirements.

(b) Use this subpart instead of FAR Part 36 for acquisition of “special construction.”

(c) Special construction costs may be—

(1) A contingent liability for using telecommunications services for a shorter time than the minimum to reimburse the contractor for unamortized nonrecoverable costs. These costs are usually expressed in terms of a termination liability, as provided in the contract or by tariff;

(2) A onetime special construction charge;

(3) Recurring charges for constructed facilities;

(4) A minimum service charge;

(5) An expediting charge; or

(6) A move or relocation charge.

(d) When a common carrier submits a proposal or quotation which has special construction requirements, the contracting officer shall require a detailed special construction proposal. Analyze all special construction proposals to—

(1) Determine the adequacy of the proposed construction;

(2) Disclose excessive or duplicative construction; and

(3) When different forms of charge are possible, provide for the form of charge most advantageous to the Government.

(e) When possible, analyze and approve special construction charges before receiving the service. Impose a ceiling on the special construction costs before authorizing the contractor to proceed, if prior approval is not possible. The contracting officer must approve special construction charges before final payment.
239.7408-2 Applicability of construction labor standards for special construction.

   (a) The construction labor standards in FAR Subpart 22.4 ordinarily do not apply to special construction. However, if the special construction includes construction, alteration, or repair (as defined in FAR 22.401) of a public building or public work, the construction labor standards may apply. Determine applicability under FAR 22.402.

   (b) Each CSA or other type contract which is subject to construction labor standards under FAR 22.402 shall cite that fact.

239.7409 Special assembly.

   (a) Special assembly is the designing, manufacturing, arranging, assembling, or wiring of equipment to provide telecommunications services that cannot be provided with general use equipment.

   (b) Special assembly rates and charges shall be based on estimated costs. The contracting officer should negotiate special assembly rates and charges before starting service. When it is not possible to negotiate in advance, use provisional rates and charges subject to adjustment, until final rates and charges are negotiated. The CSAs authorizing the special assembly shall be modified to reflect negotiated final rates and charges.

239.7410 Cancellation and termination.

   (a)(1) Cancellation is stopping a requirement after placing of an order but before service starts.

   (2) Termination is stopping a requirement after placing an order and after service starts.

   (b) Determine cancellation or termination charges under the provisions of the applicable tariff or agreement/contract.

239.7411 Contract clauses.

   (a) In addition to other appropriate FAR and DFARS clauses, use the following clauses in solicitations, contracts, and basic agreements for telecommunications services. Modify the clauses only if necessary to meet the requirements of a governmental regulatory agency.

      (1) 252.239-7002, Access.

      (2) 252.239-7004, Orders for Facilities and Services.

      (3) 252.239-7007, Cancellation or Termination of Orders.

   (b) Use the following clauses in solicitations, contracts, and basic agreements for telecommunications services when the acquisition includes or may include special construction. Modify the clauses only if necessary to meet the requirements of a governmental regulatory agency—
(1) 252.239-7011, Special Construction and Equipment Charges; and

(2) 252.239-7012, Title to Telecommunication Facilities and Equipment.

(c) Use the basic or alternate of the clause at 252.239-7013, Term of Agreement and Continuation of Services, in basic agreements for telecommunications services.

(1) Use the basic clause in basic agreements that do not supersede an existing basic agreement with the contractor.

(2) Use the alternate I clause in basic agreements that supersede an existing basic agreement with the contractor. Complete paragraph (c)(1) of the clause with the basic agreement number, date, and contacting office that issued the basic agreement being superseded.

(d) Use the clause at 252.239-7016, Telecommunications Security Equipment, Devices, Techniques, and Services, in solicitations and contracts when performance of a contract requires secure telecommunications.
245.101 Definitions.
“Mapping, charting, and geodesy property,” as used in this subpart, is defined in the clause at 252.245-7000, Government-Furnished Mapping, Charting, and Geodesy Property.

245.102 Policy.
See the policy guidance at PGI 245.102-70.

(1) Mapping, charting, and geodesy property. All Government-furnished mapping, charting, and geodesy (MC&G) property is under the control of the Director, National Geospatial Intelligence Agency.

   (i) MC&G property shall not be duplicated, copied, or otherwise reproduced for purposes other than those necessary for contract performance.

   (ii) Upon completion of contract performance, the contracting officer shall—

       (A) Contact the Director, National Geospatial-Intelligence Agency, 7500 Geoint Drive, Springfield, VA 22150, for disposition instructions;

       (B) Direct the contractor to destroy or return all Government-furnished MC&G property not consumed during contract performance; and

       (C) Specify the destination and means of shipment for property to be returned to the Government.

(2) Government supply sources. When a contractor will be responsible for preparing requisitioning documentation to acquire Government-furnished property from Government supply sources, include in the contract the requirement to prepare the documentation in accordance with DoD 4000.25-1-M, Military Standard Requisitioning and Issue Procedures (MILSTRIP). Copies are available from the address cited at PGI 251.102.

(3) Acquisition and management of industrial resources. See Subpart 237.75 for policy relating to facilities projects.

(4) Government-furnished property identification.

   (i) It is DoD policy that Government-furnished property be tagged, labeled, or marked based on DoD marking standards (MIL Standard 130) or other standards, when the requiring activity determines that such items are subject to serialized item management (serially-managed items). The list of Government-furnished property subject to serialized item management will be identified in the contract in accordance with PGI 245.103-72, Government-furnished property attachments to solicitations and awards.

   (ii) Exceptions. The Contractor will not be required to tag, label, or mark—
(A) Government-furnished property that was previously tagged, labeled, or marked;

(B) Items, as determined by the head of the agency, that are to be used to support a contingency operation; or to facilitate defense against or recovery from nuclear, biological, chemical, or radiological attack;

(C) Items for which a determination and findings has been executed concluding that it is more cost effective for the Government requiring activity to assign, mark, and register the unique item identification after delivery of an item acquired from a small business concern or a commercial item acquired under FAR part 12 or part 8.

(1) The determination and findings shall be executed by—

(i) The Component Acquisition Executive for an Acquisition Category (ACAT) I program; or

(ii) The head of the contracting activity for all other programs.

(2) A copy of the executed determination and findings shall be provided to the DoD Unique Item Identification Policy Office at this address: OUSD(AT&L)/DPAP/Program Development and Implementation, Room 3B855, 3060 Defense Pentagon, Washington, DC 20301-3060; or by facsimile to 703–602–6047.

(D) Items that are contractor-acquired property;

(E) Property under any statutory leasing authority;

(F) Property to which the Government has acquired a lien or title solely because of partial, advance, progress, or performance-based payments;

(G) Intellectual property or software; or

(H) Real property.

245.103 General.

245.103-70 Furnishing Government property to contractors.
Follow the procedures at PGI 245.103-70 for furnishing Government property to contractors.

245.103-71 Transferring Government property accountability.
Follow the procedures at PGI 245.103-71 for transferring Government property accountability.
245.103-72 Government-furnished property attachments to solicitations and awards.

When performance will require the use of Government-furnished property, contracting officers shall use the fillable electronic “Requisitioned Government Furnished Property” and/or “Scheduled Government Furnished Property” formats as attachments to solicitations and awards. See PGI 245.103-72 for links to the formats and procedures for preparing Government-furnished property attachments to solicitations and awards.

245.103-73 Government property under sustainment contracts.

See PGI 245.103-73 for information on the reporting requirements for Government inventory held by contractors under sustainment contracts in accordance with DoD Manual 4140.01, Volume 6, DoD Supply Chain Materiel Management Procedures: Materiel Returns, Retention, and Disposition.

245.103-74 Contracting office responsibilities.

See PGI 245.103-74 for contracting office responsibilities.

245.104 Responsibility and liability for Government property.

In addition to the contract types listed at FAR 45.104, contractors are not held liable for loss of Government property under negotiated fixed-price contracts awarded on a basis other than submission of certified cost or pricing data.

245.105 Contractor’s property management system compliance.

(a) Definitions—

(1) “Acceptable property management system” and “property management system” are defined in the clause at 252.245-7003, Contractor Property Management System Administration.

(2) “Significant deficiency” is defined in the clause at 252.245-7003, Contractor Property Management System Administration.

(b) Policy. The cognizant contracting officer, in consultation with the property administrator, shall—

(1) Determine the acceptability of the system and approve or disapprove the system; and

(2) Pursue correction of any deficiencies.

(c) In evaluating the acceptability of a contractor’s property management system, the contracting officer, in consultation with the property administrator, shall determine whether the contractor’s property management system complies with the system criteria for an acceptable property management system as prescribed in the clause at 252.245-7003, Contractor Property Management System Administration.

(d) Disposition of findings—
(1) Reporting of findings. The property administrator shall document findings and recommendations in a report to the contracting officer. If the property administrator identifies any significant property system deficiencies, the report shall describe the deficiencies in sufficient detail to allow the contracting officer to understand the deficiencies.

(2) Initial determination. (i) The contracting officer shall review findings and recommendations and, if there are no significant deficiencies, shall promptly notify the contractor, in writing, that the contractor’s property management system is acceptable and approved; or

(ii) If the contracting officer finds that there are one or more significant deficiencies (as defined in the clause at 252.245-7003, Contractor Property Management System Administration) due to the contractor’s failure to meet one or more of the property management system criteria in the clause at 252.245-7003, the contracting officer shall—

(A) Promptly make an initial written determination on any significant deficiencies and notify the contractor, in writing, providing a description of each significant deficiency in sufficient detail to allow the contractor to understand the deficiency;

(B) Request the contractor to respond, in writing, to the initial determination within 30 days and;

(C) Evaluate the contractor’s response to the initial determination, in consultation with the property administrator, and make a final determination.

(3) Final determination. (i) The contracting officer shall make a final determination and notify the contractor, in writing, that—

(A) The contractor's property management system is acceptable and approved, and no significant deficiencies remain, or

(B) Significant deficiencies remain. The notice shall identify any remaining significant deficiencies, and indicate the adequacy of any proposed or completed corrective action. The contracting officer shall—

(I) Request that the contractor, within 45 days of receipt of the final determination, either correct the deficiencies or submit an acceptable corrective action plan showing milestones and actions to eliminate the deficiencies;

(2) Disapprove the system in accordance with the clause at 252.245-7003, Contractor Property Management System Administration; and

(3) Withhold payments in accordance with the clause at 252.242-7005, Contractor Business Systems, if the clause is included in the contract.

(ii) Follow the procedures relating to monitoring a contractor's corrective action and the correction of significant deficiencies in PGI 245.105.

(e) System approval. The contracting officer shall promptly approve a previously disapproved property management system and notify the contractor when the
contracting officer determines, in consultation with the property administrator, that there are no remaining significant deficiencies.

(f) **Contracting officer notifications.** The cognizant contracting officer shall promptly distribute copies of a determination to approve a system, disapprove a system and withhold payments, or approve a previously disapproved system and release withheld payments to the auditor; payment office; affected contracting officers at the buying activities; and cognizant contracting officers in contract administration activities.

245.107 Contract clauses.

(1)(i) In lieu of the prescription at FAR 45.107(d), use the clause at FAR 52.245-1, Government Property, in all purchase orders for repair, maintenance, overhaul, or modification of Government property regardless of the unit acquisition cost of the items to be repaired.

(ii) For negotiated fixed-price contracts awarded on a basis other than submission of certified cost or pricing data for which Government property is provided, use the clause at FAR 52.245-1, Government Property, without its Alternate I.

252.204-7008 Compliance with Safeguarding Covered Defense Information Controls.
As prescribed in 204.7304(a), use the following provision:

COMPLIANCE WITH SAFEGUARDING COVERED DEFENSE INFORMATION CONTROLS (OCT 2016)

(a) Definitions. As used in this provision—
“Controlled technical information,” “covered contractor information system,” “covered defense information,” “cyber incident,” “information system,” and “technical information” are defined in clause 252.204-7012, Safeguarding Covered Defense Information and Cyber Incident Reporting.

(b) The security requirements required by contract clause 252.204-7012, shall be implemented for all covered defense information on all covered contractor information systems that support the performance of this contract.

(c) For covered contractor information systems that are not part of an information technology service or system operated on behalf of the Government (see 252.204-7012(b)(2)—

(1) By submission of this offer, the Offeror represents that it will implement the security requirements specified by National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171 “Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations” (see http://dx.doi.org/10.6028/NIST.SP.800-171) that are in effect at the time the solicitation is issued or as authorized by the contracting officer not later than December 31, 2017.

(2)(i) If the Offeror proposes to vary from any of the security requirements specified by NIST SP 800-171 that are in effect at the time the solicitation is issued or as authorized by the Contracting Officer, the Offeror shall submit to the Contracting Officer, for consideration by the DoD Chief Information Officer (CIO), a written explanation of—

(A) Why a particular security requirement is not applicable; or

(B) How an alternative but equally effective, security measure is used to compensate for the inability to satisfy a particular requirement and achieve equivalent protection.

(ii) An authorized representative of the DoD CIO will adjudicate offeror requests to vary from NIST SP 800-171 requirements in writing prior to contract award. Any accepted variance from NIST SP 800-171 shall be incorporated into the resulting contract.

(End of provision)

252.204-7009 Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.
As prescribed in 204.7304(b), use the following clause:

LIMITATIONS ON THE USE OR DISCLOSURE OF THIRD-PARTY CONTRACTOR REPORTED CYBER INCIDENT INFORMATION (OCT 2016)

(a) Definitions. As used in this clause—

“Compromise” means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.
“Controlled technical information” means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

“Covered defense information” means unclassified controlled technical information or other information (as described in the Controlled Unclassified Information (CUI) Registry at http://www.archives.gov/cui/registry/category-list.html) that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies, and is—

(1) Marked or otherwise identified in the contract, task order, or delivery order and provided to the contractor by or on behalf of DoD in support of the performance of the contract; or

(2) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract.

“Cyber incident” means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

“Information system” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

“Media” means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which covered defense information is recorded, stored, or printed within a covered contractor information system.

“Technical information” means technical data or computer software, as those terms are defined in the clause at DFARS 252.227-7013, Rights in Technical Data-Noncommercial Items, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

The Contractor agrees that the following conditions apply to any information it receives or creates in the performance of this contract that is information obtained from a third-party’s reporting of a cyber incident pursuant to DFARS clause 252.204-7012, Safeguarding Covered Defense Information and Cyber Incident Reporting (or derived from such information obtained under that clause):

(1) The Contractor shall access and use the information only for the purpose of furnishing advice or technical assistance directly to the Government in support of the
Government’s activities related to clause 252.204-7012, and shall not be used for any other purpose.

(2) The Contractor shall protect the information against unauthorized release or disclosure.

(3) The Contractor shall ensure that its employees are subject to use and non-disclosure obligations consistent with this clause prior to the employees being provided access to or use of the information.

(4) The third-party contractor that reported the cyber incident is a third-party beneficiary of the non-disclosure agreement between the Government and Contractor, as required by paragraph (b)(3) of this clause.

(5) A breach of these obligations or restrictions may subject the Contractor to—

   (i) Criminal, civil, administrative, and contractual actions in law and equity for penalties, damages, and other appropriate remedies by the United States; and

   (ii) Civil actions for damages and other appropriate remedies by the third party that reported the cyber incident, as a third party beneficiary of this clause.

(c) Subcontracts. The Contractor shall include this clause, including this paragraph (c), in subcontracts, or similar contractual instruments, for services that include support for the Government’s activities related to safeguarding covered defense information and cyber incident reporting, including subcontracts for commercial items, without alteration, except to identify the parties.

(End of clause)

252.204-7010 Requirement for Contractor to Notify DoD if the Contractor’s Activities are Subject to Reporting Under the U.S.-International Atomic Energy Agency Additional Protocol.

As prescribed in 204.470-3, use the following clause:

REQUIREMENT FOR CONTRACTOR TO NOTIFY DOD IF THE CONTRACTOR’S ACTIVITIES ARE SUBJECT TO REPORTING UNDER THE U.S.-INTERNATIONAL ATOMIC ENERGY AGENCY ADDITIONAL PROTOCOL (JAN 2009)

(a) If the Contractor is required to report any of its activities in accordance with Department of Commerce regulations (15 CFR Part 781 et seq.) or Nuclear Regulatory Commission regulations (10 CFR Part 75) in order to implement the declarations required by the U.S.-International Atomic Energy Agency Additional Protocol (U.S.-IAEA AP), the Contractor shall—

   (1) Immediately provide written notification to the following DoD Program Manager:

      [Contracting Officer to insert Program Manager’s name, mailing address, e-mail address, telephone number, and facsimile number];
(2) Include in the notification—

(i) Where DoD contract activities or information are located relative to the activities or information to be declared to the Department of Commerce or the Nuclear Regulatory Commission; and

(ii) If or when any current or former DoD contract activities and the activities to be declared to the Department of Commerce or the Nuclear Regulatory Commission have been or will be co-located or located near enough to one another to result in disclosure of the DoD activities during an IAEA inspection or visit; and

(3) Provide a copy of the notification to the Contracting Officer.

(b) After receipt of a notification submitted in accordance with paragraph (a) of this clause, the DoD Program Manager will—

(1) Conduct a security assessment to determine if and by what means access may be granted to the IAEA; or

(2) Provide written justification to the component or agency treaty office for a national security exclusion, in accordance with DoD Instruction 2060.03, Application of the National Security Exclusion to the Agreements Between the United States of America and the International Atomic Energy Agency for the Application of Safeguards in the United States of America. DoD will notify the Contractor if a national security exclusion is applied at the Contractor’s location to prohibit access by the IAEA.

(c) If the DoD Program Manager determines that a security assessment is required—

(1) DoD will, at a minimum—

(i) Notify the Contractor that DoD officials intend to conduct an assessment of vulnerabilities to IAEA inspections or visits;

(ii) Notify the Contractor of the time at which the assessment will be conducted, at least 30 days prior to the assessment;

(iii) Provide the Contractor with advance notice of the credentials of the DoD officials who will conduct the assessment; and

(iv) To the maximum extent practicable, conduct the assessment in a manner that does not impede or delay operations at the Contractor’s facility; and

(2) The Contractor shall provide access to the site and shall cooperate with DoD officials in the assessment of vulnerabilities to IAEA inspections or visits.

(d) Following a security assessment of the Contractor’s facility, DoD officials will notify the Contractor as to—

(1) Whether the Contractor’s facility has any vulnerabilities where potentially declarable activities under the U.S.-IAEA AP are taking place;
(2) Whether additional security measures are needed; and

(3) Whether DoD will apply a national security exclusion.

(e) If DoD applies a national security exclusion, the Contractor shall not grant access to IAEA inspectors.

(f) If DoD does not apply a national security exclusion, the Contractor shall apply managed access to prevent disclosure of program activities, locations, or information in the U.S. declaration.

(g) The Contractor shall not delay submission of any reports required by the Department of Commerce or the Nuclear Regulatory Commission while awaiting a DoD response to a notification provided in accordance with this clause.

(h) The Contractor shall incorporate the substance of this clause, including this paragraph (h), in all subcontracts that are subject to the provisions of the U.S.-IAEA AP.

(End of clause)

252.204-7011 Reserved.

(b) Adequate security. The Contractor shall provide adequate security on all covered contractor information systems. To provide adequate security, the Contractor shall implement, at a minimum, the following information security protections:

(1) For covered contractor information systems that are part of an Information Technology (IT) service or system operated on behalf of the Government, the following security requirements apply:

   (i) Cloud computing services shall be subject to the security requirements specified in the clause 252.239-7010, Cloud Computing Services, of this contract.

   (ii) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract.

(2) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1) of this clause, the following security requirements apply:

   (i) Except as provided in paragraph (b)(2)(ii) of this clause, the covered contractor information system shall be subject to the security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, “Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations” (available via the internet at http://dx.doi.org/10.6028/NIST.SP.800-171) in effect at the time the solicitation is issued or as authorized by the Contracting Officer.

   (ii)(A) The Contractor shall implement NIST SP 800-171, as soon as practical, but not later than December 31, 2017. For all contracts awarded prior to October 1, 2017, the Contractor shall notify the DoD Chief Information Officer (CIO), via email at osd.dibcsia@mail.mil, within 30 days of contract award, of any security requirements specified by NIST SP 800-171 not implemented at the time of contract award.

   (B) The Contractor shall submit requests to vary from NIST SP 800-171 in writing to the Contracting Officer, for consideration by the DoD CIO. The Contractor need not implement any security requirement adjudicated by an authorized representative of the DoD CIO to be nonapplicable or to have an alternative, but equally effective, security measure that may be implemented in its place.

   (C) If the DoD CIO has previously adjudicated the contractor’s requests indicating that a requirement is not applicable or that an alternative security measure
is equally effective, a copy of that approval shall be provided to the Contracting Officer when requesting its recognition under this contract.

(D) If the Contractor intends to use an external cloud service provider to store, process, or transmit any covered defense information in performance of this contract, the Contractor shall require and ensure that the cloud service provider meets security requirements equivalent to those established by the Government for the Federal Risk and Authorization Management Program (FedRAMP) Moderate baseline (https://www.fedramp.gov/resources/documents/) and that the cloud service provider complies with requirements in paragraphs (c) through (g) of this clause for cyber incident reporting, malicious software, media preservation and protection, access to additional information and equipment necessary for forensic analysis, and cyber incident damage assessment.

(3) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraphs (b)(1) and (2) of this clause, may be required to provide adequate security in a dynamic environment or to accommodate special circumstances (e.g., medical devices) and any individual, isolated, or temporary deficiencies based on an assessed risk or vulnerability. These measures may be addressed in a system security plan.

(c) Cyber incident reporting requirement.

(1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor’s ability to perform the requirements of the contract that are designated as operationally critical support and identified in the contract, the Contractor shall—

(i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other information systems on the Contractor’s network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor’s ability to provide operationally critical support; and

(2) Cyber incident report. The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at https://dibnet.dod.mil.

(3) Medium assurance certificate requirement. In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see https://public.cyber.mil/eca/.

(d) Malicious software. When the Contractor or subcontractors discover and isolate malicious software in connection with a reported cyber incident, submit the malicious
software to DoD Cyber Crime Center (DC3) in accordance with instructions provided by DC3 or the Contracting Officer. Do not send the malicious software to the Contracting Officer.

(e) Media preservation and protection. When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (c)(1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

(f) Access to additional information or equipment necessary for forensic analysis. Upon request by DoD, the Contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.

(g) Cyber incident damage assessment activities. If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (e) of this clause.

(h) DoD safeguarding and use of contractor attributional/proprietary information. The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph (c). To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released.

(i) Use and release of contractor attributional/proprietary information not created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD—

   (1) To entities with missions that may be affected by such information;

   (2) To entities that may be called upon to assist in the diagnosis, detection, or mitigation of cyber incidents;

   (3) To Government entities that conduct counterintelligence or law enforcement investigations;

   (4) For national security purposes, including cyber situational awareness and defense purposes (including with Defense Industrial Base (DIB) participants in the program at 32 CFR part 236); or

   (5) To a support services contractor (“recipient”) that is directly supporting Government activities under a contract that includes the clause at 252.204-7009, Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.
(j) **Use and release of contractor attributional/proprietary information created by or for DoD.** Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph (c) of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph (i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government’s use and release of such information.

(k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data.

(l) **Other safeguarding or reporting requirements.** The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor’s responsibility for other safeguarding or cyber incident reporting pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements.

(m) **Subcontracts.** The Contractor shall—

1. Include this clause, including this paragraph (m), in subcontracts, or similar contractual instruments, for operationally critical support, or for which subcontract performance will involve covered defense information, including subcontracts for commercial items, without alteration, except to identify the parties. The Contractor shall determine if the information required for subcontractor performance retains its identity as covered defense information and will require protection under this clause, and, if necessary, consult with the Contracting Officer; and

2. Require subcontractors to—

   i. Notify the prime Contractor (or next higher-tier subcontractor) when submitting a request to vary from a NIST SP 800-171 security requirement to the Contracting Officer, in accordance with paragraph (b)(2)(ii)(B) of this clause; and

   ii. Provide the incident report number, automatically assigned by DoD, to the prime Contractor (or next higher-tier subcontractor) as soon as practicable, when reporting a cyber incident to DoD as required in paragraph (c) of this clause.

“Basic cancellation liability” means the actual nonrecoverable cost, which the Government shall reimburse the Contractor at the time services are cancelled.

“Basic termination liability” means the nonrecoverable cost amortized in equal monthly increments throughout the liability period.

“Installed costs” means the actual cost of equipment and materials specifically provided or used, plus the actual cost of installing (including engineering, labor, supervision, transportation, rights-of-way, and any other items which are chargeable to the capital accounts of the Contractor), less any costs the government may have directly reimbursed the Contractor under the Special Construction and Equipment Charges clause of this agreement/contract.

“Net salvage value” means the salvage value less the cost of removal.

(b) If the Government cancels any of the services ordered under this agreement/contract, before the services are made available to the Government, or terminates any of these services after they are made available to the Government, the Government will reimburse the Contractor for the actual nonrecoverable costs the Contractor has reasonably incurred in providing facilities and equipment for which the Contractor has no foreseeable reuse. The Government will not reimburse the Contractor for any actual nonrecoverable costs incurred after notice of award, but prior to execution of the order.
(c) When feasible, the Contractor shall reuse cancelled or terminated facilities or equipment to minimize the charges to the Government.

(d) If at any time the Government requires that telecommunications facilities or equipment be relocated within the Contractor's service area, the Government will have the option of paying the costs of relocating the facilities or equipment in lieu of paying any termination or cancellation charge under this clause. The basic cancellation liability or basic termination liability applicable to the facilities or equipment in their former location shall continue to apply to the facilities and equipment in their new location. Monthly recurring charges shall continue to be paid during the period.

(e) When there is another requirement or foreseeable reuse in place of cancelled or terminated facilities or equipment, no charge shall apply and the basic cancellation liability or basic termination liability shall be appropriately reduced. When feasible, the Contractor shall promptly reuse discontinued channels or facilities, including equipment for which the Government is obligated to pay a minimum service charge.

(f) The amount of the Government's liability upon cancellation or termination of any of the services ordered under this agreement/contract will be determined under applicable tariffs governing cancellation and termination charges which—

(1) Are filed by the Contractor with a governmental regulatory body, as defined in the Rates, Charges, and Services clause of this agreement/contract;

(2) Are in effect on the date of termination; and

(3) Provide specific cancellation or termination charges for the facilities and equipment involved or show how to determine the charges.

(g) The amount of the Government's liability upon cancellation or termination of any of the services ordered under this agreement/contract, which are not subject to a governmental regulatory body, will be determined under a mutually agreed schedule in the communication services authorization (CSA) or other contractual document.

(h) If no applicable tariffs are in effect on the date of cancellation or termination or set forth in the applicable CSA or other contractual document, the Government's liability will be determined under the following settlement procedures—

(1) The Contractor agrees to provide the Contracting Officer, in such reasonable detail as the Contracting Officer may require, inventory schedules covering all items of property or facilities in the Contractor's possession, the cost of which is included in the Basic Cancellation or Termination Liability for which the Contractor has no foreseeable reuse.

(2) The Contractor shall use its best efforts to sell property or facilities when the Contractor has no foreseeable reuse or when the Government has not exercised its option to take title under the Title to Telecommunications Facilities and Equipment clause of this agreement/contract. The Contractor shall apply any proceeds of the sale to reduce any payments by the Government to the Contractor under a cancellation or termination settlement.
(3) The Contractor shall record actual nonrecoverable costs under established accounting procedures prescribed by the cognizant governmental regulatory authority or, if no such procedures have been prescribed, under generally accepted accounting procedures applicable to the provision of telecommunication services for public use.

(4) The net salvage value shall be deducted from the Contractor's installed cost. In determining net salvage value, the Contractor shall consider the foreseeable reuse of the facilities and equipment by the Contractor. The Contractor shall make allowance for the cost of dismantling, removal, reconditioning, and disposal of the facilities and equipment when necessary either for the sale of facilities or their reuse by the Contractor in another location.

(5) Upon termination of services, the Government will reimburse the Contractor for the nonrecoverable cost less such costs amortized to the date services are terminated and establish the liability period as mutually agreed to but not to exceed ten years. In the case of either a cancellation or a termination, the Government's presumed maximum liability will be capped by the unpaid non-recurring charges and the monthly recurring charges set out in the contract/agreement. The presumed maximum liability for monthly recurring charges shall be capped at monthly recurring charges for the minimum service period and any required notice period.

(6) When the basic cancellation liability or basic termination liability established by the CSA or other contractual document is based on estimated costs, the Contractor agrees to settle on the basis of actual cost at the time of cancellation or termination.

(7) The Contractor agrees that, if after settlement but within the termination liability period of the services, should the Contractor make reuse of equipment or facilities which were treated as nonreusable or nonsalvable in the settlement, the Contractor shall reimburse the Government for the value of the equipment or facilities.

(8) The Contractor agrees to exclude—

   (i) Any costs which are not included in determining cancellation and termination charges under the Contractor's standard practices or procedures; and

   (ii) Charges not ordinarily made by the Contractor for similar facilities or equipment, furnished under similar circumstances.

   (i) The Government may, under such terms and conditions as it may prescribe, make partial payments and payments on account against costs incurred by the Contractor in connection with the cancelled or terminated portion of this agreement/contract. The Government may make these payments if the Contracting Officer determines that the total of the payments is within the amount the Contractor is entitled. If the total of the payments is in excess of the amount finally agreed or determined to be due under this clause, the Contractor shall pay the excess to the Government upon demand.

   (j) Failure to agree shall be a dispute concerning a question of fact within the meaning of the Disputes clause.
