SUBJECT: Contracting and Contractor Related Guidance and Information for Iraq and Syria

This memo provides sources of current contracting and contractor related guidance for Operation Inherent Resolve (Iraq and Syria) (attached). This information is also linked to the DPAP/Contingency Contracting International Operations webpage http://www.acq.osd.mil/dpap/pacc/cc/international_operations.html (click on Operation Inherent Resolve). Please forward to your contracting offices and request that it be disseminated to affected contractors.

The Hot Topics section of the DPAP Contingency Contracting webpage is one of our key outlets to quickly disseminate new information. For the long term, contracting activities and contractors should continue to search the webpage mentioned above, the United States Central Command (USCENTCOM) Operational Contract Support webpage (same link as above, click on USCENTCOM) and the Defense Federal Acquisition Regulation Supplement (DFARS) <http://www.acq.osd.mil/dpap/dars/dfarspgi/current/>, for specific guidance affecting contracts performing in these areas.

Due to the rapid pace of change in deployed military operations, contracting officers should frequently check the links provided in the attached guidance for updates on related policies that affect contractors working in these areas. My POC is Mr. Bill Reich, at william.f.reich2.civ@mail.mil or 571-256-7009.
