Standard Procurement System (SPS) Update
DoD Procure-to-Pay (P2P) Training Symposium

Jackie Bostic, SPS PM
DLA - J62C/SPS-JPMO
April 2 - 5, 2018
• Current SPS Release Status

• FY2018 Change Requests & Technology Upgrades

• SPS Sunset Support
Current SPS Release Status

• Service Release Deployment Status
  – SR15 – Currently - 3% (SOCOM & Army)
  – SR16 – Currently - 91%
  – SR17 – Currently – 6% (55% of Army non-USACE, BUMED, DHA)

• SR17a – Latest SPS Accepted Baseline
  – 4 technology updates
    • Java 8
    • webMethods v9.8 support
    • Office 2013
    • Sybase ASE 16.0
  – 8 Change Requests
    • Spend Analysis
    • Effective Date
    • Blank Contract Type Warrant
    • External Award Closeout
    • Vendor Debarred Status & Vendor DBA Name
    • Autosave
    • PSC Lockdown
    • PIID Search Capability
Current SPS Release Status

• SPS – Procurement Data Standard (PDS)
  – PDS Extract Utility v5.3 – current version in use (Accepted November 2017)
  – PDS Extract Utility v5.4
    • New SPS-PDS Release in the works…
      – Acceptance – projected for late Spring
    • DPAP is retiring PDS v2.5 on October 31, 2018
    • SPS-PDS Extract Utility v5.4 (in testing) provides PDS v2.5.1 capability along with a few bug fixes
    • It will be important for all sites to upgrade to the new version when it becomes available or the PDS v2.5 will fail at GEX after October 31st
    • A revised PDS Punch-out v2.0 is underway and includes Handshake 2 capability (Funds Certification with a financial system)
    • To perform Handshake 2, sites will need to request an additional channel with GEX
Current SPS Release Status

• SPS – Procurement Data Standard (PDS) - cont.
  – PDS Punch-out Utility v1.0 – current version in use (Accepted June 2014)
  – PDS Punch-out Utility v2.0 (Handshake 2)
    • Acceptance – projected for late Spring
  – PDS Conformed Award Utility v1.0
    • Accepted on October 11, 2016
    • Produces conformed PDS contracts. Developed for the purpose of PDS data migration when it is determined that the conformed PDS data on EDA is sparse for the receiving system.
• **Upcoming SR17 Updates**
  
  – **Technology Upgrades**
    
    • Powerbuilder 2017/Windows 10 certification
    • webMethods v10.1
    • Sybase ASE v16 SP03 PL02
  
  – **Stakeholder/Customer RFCs**
    
    • USAF – Add Text RFC – fix an existing Add Text issue
    • USN – Audit Logging – support audit requirements
    • DPAP – Data Lake Integration – support SPS sunset
      
      – Extract data/documents for closed contracts to Data Lake for retention period
SPS Sunset Support

• **Sunset Date**
  – No new actions after end FY20
  – No additional contract actions on existing SPS contracts after FY23 (September 30, 2023)

• **SPS Pending Sunset Impacts**
  – Support for Customer Contract Writing System Schedules
  – Supporting for Legacy Integrations De-support Schedules
  – Reduced Testing Resources
  – Future Software Licensing (webMethods, Sybase, etc.)
  – Continued System Maintenance; Technical Viability

  • **Goal:** Support for one Service Release for all customers
SPS Sunset Support

• SPS Customer Sunset Support
  – Contract Closeout
  – Data Retention
  – Data Migration
SPS Sunset Support

• **Contract Closeout Support**

In preparing to sunset SPS, existing contracts can be categorized as:

– **Closed Out: In Retention**
  • SPS Initiative: Send Forms / Data to Data Lake (e.g. Pre-Award, Post-Awards, Attachments, etc.) to compliment existing EDA Forms / Data
  • Benefits: Aids in the retirement of SPS databases

– **Ready to be Closed Out: Final Invoice Paid**
  • SPS Initiative: Ability receive DD 1594 data from WAWF; Ability to send DD 1594 data to GEX.
  • Benefits: Receiving DD 1594s aids in closing contracts within PD2 for the offices that used PD2 for that purpose. Sending DD 1594s for contracts closed within PD2 helps alert others that the contract is closed

– **Active (almost done):** Current contract coming to a close

– **Active (many years left):** Need to migrate or continued contract
  • SPS Initiative: PDS Conformed Award Utility
  • Benefits: Aids in migrating a Conformed PDS Award to a new CWS

EDA
SPS Sunset Support

- **Data Retention Support**
  - Closed contract repository
  - Data Lake Integration RFC
    - Provides for an enterprise solution for data retention
    - Provides additional contract data retention beyond just the closed conformed contract (from EDA)
      - Pre-Award & Post-Award data/documents
SPS Sunset Support

• **Data Migration Support**
  – Open contracts
  – The Strategic Plan for Defense Wide Procurement Capabilities (A Functional Strategy) Version 2.2, March 2017, Section 5.5 Data Standards states,

  “Components are encouraged to use the PDS and Electronic Document Access system as part of a data migration strategy in transitioning from legacy systems.”

  – The SPS-PDS Conformed Award Utility (CAU) was developed to assist with the migration from SPS to new contract systems that can ingest conformed PDS
  – This tool is available to SPS sites that would like to produce samples for their new CWS prototypes
    • Air Force is using this for CON-IT data migration and checking contract quality prior to migration
