

PROCURE-TO-PAY

TRAINING SYMPOSIUM 2019

Orlando

Procurement Business Intelligence System (PBIS)

Presented by: Gary Wolanske
& Terry Ford, DLA J62

What is PBIS?

- **Procurement Business Intelligence Service (PBIS).**
- PBIS is a DPC/CeB created data warehouse capability used for mining enterprise procurement data across the Department and displaying that information in a user-friendly dashboard-like presentation.
- The primary purpose of PBIS is to serve Senior Procurement Executives and provide management-level reports that enable them to understand the health of the acquisition community's operating environment and to make well informed business decisions prior to issuing new procurement policy that may impact other functional areas within the DoD supply chain.

What PBIS is not...

- PBIS is not a transactional application that processes procurement data; rather, it is a data and information sharing service application that allows customers to view procurement data via reports for internal use within their organizations.
- PBIS is not a source system itself nor does it generate new source data, but does compile data from other source systems.
- PBIS data is not 'Free-Range Organic'. Every time PBIS data is used it must be marked "For Official Use Only (FOUO)" and sourced to PBIS using the data type and phrase such as "PDS data as supplied by PBIS."

Current Data Sources in PBIS

- **(NEW)** Federal Procurement Data System (FPDS) DoD data from FY2010 forward via ATOM FEED **v1.5** (including current 90 day FOUO).
- **(NEW)** Federal Procurement Data System (FPDS) Other Transaction (OT) Agreements from FY2010 forward via ATOM FEED v1.5 (including current 90 day FOUO).
- Electronic Document Access (EDA) and Wide Area Work Flow (WAWF) Management Report Server (MRS) data.
- Contracting Officer Representative Tracking (CORT) data.
- PDS Verification Acknowledgment (PDS VAR) data.
- **(NEW)** SP2 Government-wide Commercial Purchase Card (GPC) data (FY2018).
- Major Command (MAJCOM), Combatant Command (COCOM), DOD's PSC Taxonomy (PORTFOLIO), and other referential data.

Future Data Sources in PBIS

- Defense Assistance Award Data System (DAADS) historic data.
- Financial Assistance Award Data Collection (FAADC) data.
- SP3 Government-wide Commercial Purchase Card (GPC) data.
- Contracting Officer Representative Tracking (CORT) enhanced data.
- Federal Procurement Data System (FPDS) Civilian data from FY2015 forward via ATOM FEED v1.5 (including current 90 day FOUO).
- SAM Data via Web Services.

Current Reports in PBIS

- **All Government Contract Spend (AGCS) Reports**
 - AFRICOM -- CENTCOM
 - EUCOM -- NORTHCOM
 - PACOM -- SOUTHCOM
 - National Interest Action (NIA)
- **Better Buying Power Analysis Reports**
 - Better Buying DOD by Portfolio (Summary Analysis)
 - Better Buying DOD by Portfolio (Contract Pricing Analysis)
 - Better Buying DOD by Portfolio (Small Business Analysis)
 - Better Buying DOD by Portfolio (Competition Analysis)
- **Competition Analysis Scorecards**
 - Competition Analysis
 - Competition Analysis with Exclusion
- **Contract Data Scorecards**
 - Contract Data Scorecard
 - Contract Data Scorecard (Supportive Analysis)
 - Contract Data Scorecard (PDS Office Count)
 - Contract Data Scorecard (Actions Missing from EDA as PDF)
 - Contract Data Scorecard (Actions Missing from EDA as X12)
 - Contract Data Scorecard (Awards, Orders, and Modifications not in EDA as PDS)
- **Contract Reporting Scorecards**
 - Contract Reporting Scorecard
 - Contract Reporting Scorecard (FPDS Office Count)
 - Contract Reporting Scorecard (Actions Missing from FPDS)
 - Contract Reporting Scorecard (Actions Missing from FPDS) by Agency
- **Contracting Officer Representative Tracking (CORT) Reports**
 - Contracting Officer Representative Tracking (CORT) **(NEW)**
- **FPDS Anomaly Reports**
 - DFAS_as_the_Funding_Agency
 - DoD Qualifying Country Errors
 - Obligations / Deobligations Greater Than \$ Threshold
- **FPDS Special Reports**
 - AbilityOne
 - Commercial Procedures
 - Contract Business Analysis Requirements (CBAR)
 - Contract Look-Up
 - Federal Prison Industries (FPI) UNICOR
 - FedMall **(NEW)**
 - MDAP-MAIS Program Number (PNO)
 - Other Transactions (OT) **(NEW)**
 - Place Of Performance is Non-USA
 - Randolph-Sheppard Act
 - Small Business Innovation Research (SBIR)-Small Business Technology Transfer (STTR)
 - Socio-Economic Obligations Without Goaling Exclusions
- **Health Analysis Reports**
 - Health Reports
 - Organization at a Glance
 - Procurement Administrative Lead Time (PALT) **(NEW)**
 - Type of Contract Reports
- **PDS Validations Acknowledgement (PDS VAR) Reports**
 - PDS VAR (Raw Data)
 - PDS VAR (Action Status)
 - PDS VAR (Error Type) **(NEW)**
 - PDS VAR (Error Number) **(NEW)**
- **Small Business Analysis Scorecards**
 - Small Business Analysis **(NEW - Awarded and Funded w/ Hierarchy format)**

Future Reports in PBIS (FY19)

- Closeout Reports
- Procurement Administrative Lead Time (PALT) Summary Reports
- Other Transactions (OT) Summary Reports
- Financial Assistance Award Data Collection (FAADC) Reports
- Contracting Officer Representative Tracking (CORT) Report
 - Phase II / Detailed COR information
- Late Reporting Reports
 - Phase II / Updated with increased accuracy given FPDS V1.5 information
- Category Management Reports
- PSC / OCC (Object Class) Reports
- Non-Traditional Contractor Reports
- **AND MORE !!!**

PBIS Home

The screenshot shows the Oracle BIEE Home interface. At the top, there are logos for the Department of Defense, the Army, and the Navy, followed by the PBIS logo and the text "PROCUREMENT BUSINESS INTELLIGENCE SERVICE". A search bar and navigation links like "Advanced", "Administration", "Help", and "Sign Out" are visible. Below the header, there's a navigation bar with "Home", "Catalog", "Favorites", "Dashboards", "New", "Open", and "Signed In As WOLANSKE.GARY.R".

The main content area is divided into several sections:

- Create...:** Includes links for "Analysis and Interactive Reporting", "Mobile Application", "Published Reporting", "Actionable Intelligence", "Performance Management", and "Marketing".
- Browse/Manage...:** Lists "All Content", "My Analyses", "My Reports", "My Scorecards", "My Agent Subscriptions", "My Agents", "Mobile Apps Library", "Marketing Jobs", "Report Jobs", and "Report Job History".
- Get Started...:** Provides "Introduction to Oracle BI", "Oracle BI EE Documentation", "Download BI Desktop Tools", and "Help Contents".
- Reports:** A section for "Procurement Data Analysis".
- User Notifications:** Includes "Deployment Notifications" and "System Downtime Notifications".
- Recent Dashboards:** A grid of dashboard thumbnails such as "Procurement Data Analysis - R...", "Usage Tracker - Usage Tracker", "Small Business Scorecard - Sim...", "Health Analysis - page 1", "FPDS Anomaly Reports - Small...", and "Contract Reporting Scorecard...".
- More Dashboards...:** A section for additional dashboard options.
- Others:** Lists "Contract Reporting Scorecard...", "Contract Reporting Scorecard", and "Contract Data Scorecard".
- Most Popular:** Highlights "Deployment Notifications - De...", "Procurement Data Analysis - R...", "All Government Contract Open...", "FPDS Special Reports - FPDS S...", "Health Analysis - page 1", and "Contract Reporting Scorecard...".

Procurement Data Analysis

The screenshot shows the PBIS (Procurement Business Intelligence Service) web application interface. At the top left, there are three circular logos: the Department of Defense, the Office of the Inspector General, and the Department of Defense Inspector General. To the right of these logos is the PBIS logo, which includes the text "PROCUREMENT BUSINESS INTELLIGENCE SERVICE". A search bar is located in the top right corner, with a dropdown menu set to "All" and a search button. Next to the search bar are links for "Advanced", "Administration", "Help", and "Sign Out". Below the search bar is a navigation bar with the title "Procurement Data Analysis" and several menu items: "Home", "Catalog", "Favorites", "Dashboards", "New", "Open", and "Signed In As WOLANSKE.GARY.R". The main content area features a message: "As we plan for new PBIS reports and features we also would like to hear any suggestions or comments you may have. Please email us at osd.pentagon.ousd-atl.mbx.pbis-support@mail.mil". Below this message is a grid of ten report links, each with a small icon and a title: "All Government Contract Spend (AGCS) Reports", "Better Buying Power Analysis Reports", "Competition Analysis Scorecards", "Contract Data Scorecards", "Contract Reporting Scorecards", "Contracting Officer Representative Tracking (CORT) Reports", "FPDS Anomaly Reports", "FPDS Special Reports", "Health Analysis Reports", and "PDS Validations Acknowledgement (PDS VAR) Reports".

Procurement Toolbox

<https://dodprocurementtoolbox.com/site-pages/pbis>

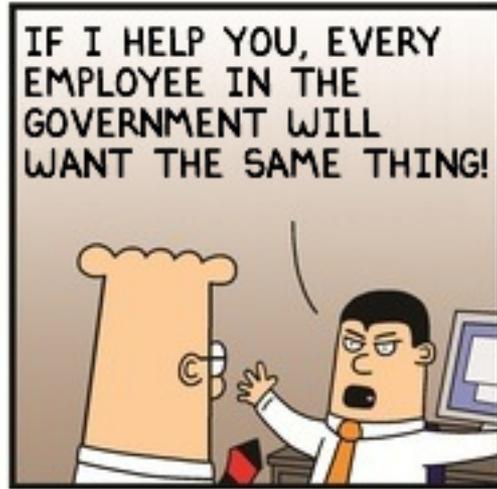

The screenshot shows the Procurement Toolbox website interface. At the top left is the Department of Defense logo and the text "Department of Defense Procurement Toolbox". At the top right are navigation links: "Home", "FAQs", "Calendar", and "Contact Us". Below this is a search bar with a "Search" button. A secondary navigation bar contains dropdown menus for: "Government Furnished Property", "Unique ID", "eBusiness", "Purchase Card", "Cybersecurity", "Procure to Pay (P2P)", "Contract Closeout", and "Beta.SAM".

The main content area is titled "FPDS Special Reports Reference Documents" and contains a table with the following data:

Name	Date	
Actions to Federal Prison Industries (UNICOR) - Report User Guide	Current Version	View >>
Awards to Ability One Vendors - Report User Guide	Current Version	View >>
Contract Business Analysis Requirements (CBAR) - Report User Guide	Current Version	View >>
MDAP-MAIS Program Number (PNO) - Report User Guide	Current Version	View >>
Other Transactions - Report User Guide	Current Version	View >>
Place of Performance is Non-USA - Report User Guide	Current Version	View >>
Randolph-Sheppard Act Dining Facilities	Current Version	View >>

At the bottom of the page, there is a footer with the Department of Defense logo and "Procurement Toolbox" on the left, and a "Sign up for updates:" section on the right. The sign-up section includes an email input field with the placeholder text "Enter your email address" and a "Signup" button.

But I need A LOT of data....

What is PBIS MRS?

- **Procurement Business Intelligence System - Management Report Server (PBIS MRS).**
 - Formerly known as FPDS MRS
- DPC/CeB built an interface from FPDS to PBIS using the FPDS Atom Feed process. PBIS MRS has the following three datasets currently available:
 - DoD-issued and DoD-funded Awards
 - Indefinite Delivery Vehicles (IDVs)
 - Other Transactions (OT) – **Coming Really Soon**
- Making this FPDS data available to other DoD components alleviates the need for duplicate developmental efforts.
- PBIS MRS is under the PBIS umbrella but is its own actual server designed for the System Data User's external system to connect to and consume the FPDS data they need directly.

What PBIS MRS is not...

- PBIS MRS is not intended to be a transactional information server and was intentionally designed to be the source system to build a data repository on the System Data User's external system.
- PBIS MRS is not absolutely current, there is a 3-day difference between FPDS and PBIS MRS due to the nature of FPDS-NG Atom Feed data processing.
- PBIS MRS data is not 'Free-Range Organic'. Every time PBIS MRS data is used it must be marked "For Official Use Only (FOUO)" and sourced back to PBIS as the data originator and phrased such as "FPDS-NG data as supplied by PBIS."

PBIS MRS System Guidelines

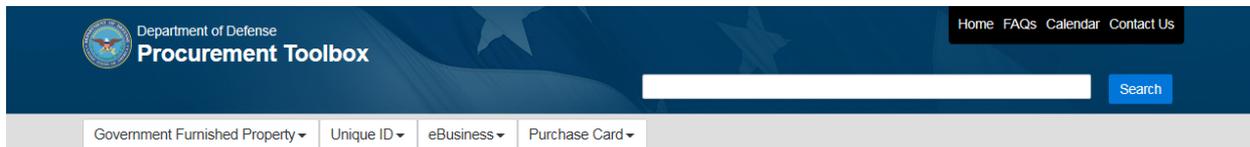

- System Data User's external system accounts can have a maximum of three independent connections to PBIS MRS which will use the three IP addresses (Testing, Production, & COOP) supplied by the user.
- System Data User's external system can connect to PBIS MRS in one of two ways, via a DBLINK* or JDBC Type 4 connection. *If using the DBLINK connectivity, the external system must be an Oracle database.
- All external systems that connect to PBIS MRS must be located on the .MIL network (i.e., NIPRNet).
- System Data User's external system must accept and use the SSL authentication to connect to PBIS MRS instead of using native encryption.
- The agreement between the System Data User's agency and DPC will be formalized in a Memorandum of Understanding (MOU), which will be signed by both parties after the PBIS MRS connection is established.
- At this time, there is no cost to access PBIS MRS. Any future changes will be discussed with current and potential users before being implemented.

Gimme Gimme Gimme ...

- **Milestone 1: Approve PBIS MRS System Data User Request Form**
 - DPC will send interested users an introductory document, along with the PBIS MRS Milestone Timeline and PBIS MRS System Data User Request Form. DPC will also send users an unclassified version of a data dictionary of available data fields in PBIS MRS.
 - Users will fill out and submit the PBIS MRS System Data User Request Form, which includes connection details such as the desired IP addresses, connection type, and system name, along with government and technical points of contact. DPC will verify and approve the form and begin setting up the account.
- **Milestone 2: Test server connectivity**
 - DPC will send a document with the detailed instructions for establishing server connectivity.
 - DPC will create a username and password for the user, as well as punch the IP addresses.
 - Once these steps are complete, DPC will send the connection information to the user so they can test their server connectivity.
 - Server connectivity testing MUST be accomplished as per DPC protocols before moving to Milestone 3.
- **Milestone 3: Test data availability and extraction**
 - DPC will provide a document with the detailed instructions for performing data extracts. Once the datasets are set up and tested internally, DPC will provide sample data to the user.
 - The user will then be able to connect to PBIS MRS and start pulling data.
- **Milestone 4: Sign completed Memorandum of Understanding (MOU)**
 - DPC and the user will sign an MOU, which covers the responsibilities of both parties.

Procurement Business Intelligence Service (PBIS)

PBIS is a data warehouse capability used for mining enterprise procurement data across the Department of Defense and displaying that information in a user-friendly dashboard-like presentation to understand the true health of the acquisition community's operating environment.

Its primary purpose is to serve Senior Procurement Executives and provide management-level reports that enable them to make well informed business decisions prior to issuing new procurement policy that may impact other functional areas within the DoD supply chain.

Defense Procurement and Acquisition Policy (DPAP) Program Development and Implementation (PDI) has partnered with the Army's Project Directorate (PD) Acquisition, Logistics, and Technology Enterprise Systems Services (ALTESS) organization. ALTESS hosts the PBIS environment and DPAP owns the mission for PBIS. DPAP makes procurement data from the Federal Procurement Data System (FPDS-NG) available to users through a variety of PBIS reports and external system connections to the Federal Procurement Data System Management Report Server (FPDS MRS).

The links below explain the different types of PBIS users, relevant policies, available reports, and connections that can be made to external systems.

- [User Community](#)
Learn about the types of PBIS users and how to request access to the system.
- [Policies & Procedures](#)
Understand the policies that should be followed.
- [Procurement Data Analysis Reports](#)
Explore the reports available in PBIS for Report Users.
- [Resources for External Systems](#)
Determine the resources that are available for System Data Users connecting to PBIS from an external system.

What does that mean for me?

- PBIS Reports can be filtered down to fit the needs for your own organization and export the data whenever you want.
- PBIS MRS can supply large amounts of unfiltered data for you to store locally to perform your own analysis on.
- PBIS and PBIS MRS are already built so you don't have to.
- **As we plan for new PBIS reports and features we also would like to hear any suggestions or comments you may have. Please email us at: osd.pentagon.ousd-atl.mbx.pbis-support@mail.mil**

Procure-to-Pay

Training Symposium

April 23 - April 25, 2019 • Hilton Lake Buena Vista - Florida
