COR Standard for Certification and Training
Panel on Contracting Integrity

- Section 813, FY07 NDAA directed AT&L to establish a Panel on Contracting Integrity to review progress DoD has made in eliminating areas of vulnerability that allow for fraud, waste, and abuse.

- The Panel identified inadequate surveillance of services contracts as one area of vulnerability and directed:
  - Development of a COR Standard for Certification
  - Develop policy to require that properly trained CORs are assigned before contract award
  - Require COR performance to be reflected in performance assessments
Panel identified general and technical competencies for CORs

- Assembled listing of common COR functions/duties/responsibilities from Component/agency letters of Appointment/Delegation
- Focus group of CORs validated competencies using DAU’s Think Tank
- Competencies closely aligned with those recommended in OFPP’s Federal Acquisition Certification-COTR, 26 November 07
  - Competencies are more specific to needs of DOD including surveillance in a contingency environment
- Training and Certification Standard were developed to ensure
813 Panel Progress

- DEPSECDEF memo of 22 Aug 08 requires appointment of trained COR before contract award
  - Requires COR duties to be considered during annual performance assessment
- New DoD-wide Certification Standard and DOD Policy Instructions are in DoD review
  - Will apply to all CORs in DOD
  - Experience and Training will be standardized
  - Individual components/activities can add additional requirements
Type A Work Effort

- Low performance-risk, fixed-price requirements without incentives. Attributes of such requirements might include, for example: lack of technical or administrative complexity, no identifiable risk factors, limited requirement for technical expertise, low likelihood of modifications, effort is a follow-on to an existing contract, etc.

- COR duties/responsibilities are generally limited to minimal technical and/or administrative monitoring of the contract.

Type A Experience and Training Standard for COR

- Experience:
  - 6 months general experience
  - Relevant experience as determined by supervisor and KO

- Training:
  - DAU’s 8 hr CLC 106
  - Contingency module if in contingency environment
Type B Work Effort

• Other than low risk requirements. Attributes of such requirements might include, for example: the nature of the work is more complex, effort will be performed in multiple regions or in remote geographic locations, contract contains incentive arrangements or cost sharing provisions, contract is a cost-type or T&M/LH type.

• COR duties/responsibilities are of increased complexity.

Type B Experience and Training Standard for COR

• Experience:
  – 12 months general experience
  – Relevant experience as determined by supervisor and KO

• Training:
  – DAU’S COR 222, ALMC COR course or equivalent
  – Contingency module if in contingency environment
Type C Work Effort

- Unique contract requirements that necessitate a professional license, technical license or higher education, beyond the type B requirements.
- Such requirements might include, for example: environmental remediation, major weapons systems, medical services, dental services, and veterinarian services, etc.
- COR duties/responsibilities involve highly complex or specialized requirements.

Type C Experience and Training Standard for COR

- Experience:
  - 12 months general experience
  - Relevant experience as determined by supervisor and KO
- Training:
  - DAU’S COR 222, ALMC COR course or equivalent
  - Contingency module if in contingency environment
  - Mandatory/Specialized Training determined by Agency
Training Requirements

• DOD Panel is recommending a COR certification that includes specific DAU courses or equivalents.

• Type A
  – CLC 106, CORs With A Mission Focus, 8 hours on-line

• Type B/C
  – COR 222, Contractor Officer Representative Course, 32-36 hour resident course

  • On-line alternative in development. Expected completion in 4th Qtr FY 2010
Training Requirements (cont)

• Contingency (when applicable)
  – CLC 206, CORs in the Contingency Environment, 2-3 hrs on-line
    • Expected completion 2nd Qtr FY 2010

• All CORs
  – CLM 003 or agency equivalent on procurement ethics

• COR Refresher
  – Hours specified, no specific course
Equivalency

• Equivalency to DAU courses necessary to ensure CORs get required competencies
  – Equivalency assessment is formalized process through American Council on Education (ACE)
  – ALMC COR training is equivalent to COR222 + CLC 206

• Contractors and Internal Gov’t Providers can submit training for equivalency
  – Must match Terminal Learning Objectives
  – ACE accreditation and Qualified Instructors
DoD COR Tool

- Electronic nomination process
  - COR has the ability to self nominate
  - Electronic supervisor and contracting officer/specialist approval of COR nomination request
- Review status of all COR nomination requests
  - Approved, Rejected, awaiting approval
- Identify CORs by name, career field, certification level and other contact information
- Identify COR supervisor by name and other contact information
- Identify contracting officer/specialist by name and other contact information
DoD COR Tool

- Identify all training completed by the COR by complexity of the work/requirement (Type A/B/C), including basic and refresher training requirements
- Track contracts by COR
- Track CORs by contract
- Add and review documents, such as a Status Report, COR trip report, correspondences and other miscellaneous documents to one or more of the COR appointed contracts
- Termination of COR appointment
DoD COR Tool

- Beta version of the DoD COR Tool delivered to DoD February
- Testing of beta version with DoD volunteer users
- Initial Operational Capability Version 1.0 - March 30
