SUBJECT: Strategic Plan for Defense Wide Procurement Capabilities (A Functional Strategy) –  
Version 3.0

This memorandum announces the release of the "Strategic Plan for Defense Wide Procurement Capabilities (A Functional Strategy) – Version 3.0," dated March 10, 2020. This strategic plan articulates requirements for Defense wide procurement capabilities to use established data standards, enterprise services, internal controls, and business intelligence for fiscal years (FY) 2020 through FY 2025.

This plan was developed within the framework of the National Defense Strategy and targets the reform line of effort to change the way we do business to maximize Department of Defense (DoD) enterprise solutions, leverage standards and acquire equipment and services more efficiently. It was coordinated with the Procurement Business Operations Review Group and DoD Component Procurement Executives.
