SUBJECT: Purchases from Federal Prison Industries; Updated List of Federal Supply
Classification Codes to be Competed

Section 827 of the National Defense Authorization Act for FY 2008, Public Law 110-181, amended 10 U.S.C. section 2410n to require the Department of Defense (DoD) publish a list of product categories for which the Federal Prison Industries' (FPI) share of the DoD market is greater than five percent. We have issued the list annually since 2008.

The attached list of product categories for which FPI's share of the DoD market is greater than five percent is based on FY 2021 data from the Federal Procurement Data System. The product categories and the products within each of the identified product categories must be procured using competitive (or fair opportunity) procedures in accordance with Defense Federal Acquisition Regulation Supplement (DFARS) 208.602-70. Contracting officers shall consider a timely offer from FPI for any of the product categories on the list when conducting the competition. FPI must be included, even if the procurement would have been a set-aside in accordance with FAR Part 19. In addition, an award must be made in accordance with the policy at FAR Subparts 8.602(a)(4)(ii) through (v). For a competitive solicitation, if the FPI item provides the best value to the Government, follow the ordering procedures at <http://www.unicor.gov>.

This year's list provides changes from the previous two years, which were identical. The list will be posted on the DPC website at: <https://www.acq.osd.mil/asda/dpc/cp/policy/other-policy-areas.html#fpi>. If a Federal Supply Code is not identified, FPI does not have a significant market share and contracting officers should follow procedures at FAR Subpart 8.6.

My staff point of contact for FPI procurement policy is Mr. Mario Thompson, 808-590-0652 or Mario.d.thompson.civ@mail.mil.
