SUBJECT: Request for Fiscal Year 2017 Competition Report and Establishment of FY 2018
Competition Goals

This memorandum requests FY 2017 Component Competition Reports required under Federal Acquisition Regulation (FAR) 6.502(b). The competition report provides an opportunity to conduct meaningful analysis of competition achievements and highlight actions taken to promote competition during the year. The report shall address the reporting requirements in FAR 6.502(b), and must include at least three years of trend data on overall and effective competition, including fair opportunity achievements and examples that represent report findings. Please submit your report to Defense Procurement and Acquisition Policy/Contract Policy & International Contracting by June 8, 2018.

The competition report shall be based on data from the Federal Procurement Data System – Next Generation (FPDS-NG) standard competition report, which tracks competition and fair opportunity on orders under multiple award contracts and federal supply schedule contracts. The competition advocates shall also use the FPDS-NG standard report, “Competition Procedures but One Only Offer Report,” to report on effective competition for contract obligations in which competition was sought but only one offer was received.

The report shall also address specific actions taken and planned to promote competition. As applicable, the report shall address competition achievements for contingency contracting obligations under Operation Inherent Resolve (OIR) and Operation Freedom’s Sentinel (OFS), as well as the result of the required annual review of omnibus contracts in support of OIR and OFS as required by Section 844 of the National Defense Authorization Act for FY 2012.

For FY 2018 the Department's competition goal is set at 53 percent. The Department and Components' competition goals are set forth in the attachment.

My point of contact for this report is Ms. Sarah Chatman who may be reached at sarah.e.chatman.civ@mail.mil or 703-693-7062. Please submit your reports directly to Ms. Chatman.
