SUBJECT: Government Furnished Property Clause Compliance

Accountability and auditability of Government Furnished Property (GFP) cannot be achieved if contracts do not contain the appropriate contract clauses. Defense Procurement and Acquisition Policy (DPAP) leads a quarterly GFP Working Group established to strengthen the accountability and management of GFP. Several policy issuances listed at <http://www.acq.osd.mil/dpap/pdi/gfp/index.html> have formalized end to end business rules, data standards, and internal controls. The "GFP Resources" document itemizes training and other resources for strengthening GFP practices (attached).

To ensure effective implementation of these policies, DPAP reviewed contract clause compliance. While compliance has improved over the last year there is still room for improvement. Data for the last three quarters is attached. Evaluation of new contract awards indicates that the required Federal Acquisition Regulation (FAR) and the Defense Federal Acquisition Regulation Supplement (DFARS) provisions are not included when required. The FAR clause 52.245-1 is required in all cost reimbursable and time and material contracts but is included less than 79% of the time. Similarly, the five DFARS clauses required in all contracts containing 52.245-1 were all included in less than 39% of new awards during FY14Q3.

DPAP will publish quarterly scorecards on the inclusion of the FAR and DFARS property clauses in new awards. The Director, Defense Contract Management Agency (DCMA) will include checks for the required FAR and DFARS property clauses in the Agency's contract receipt and review process (to the extent those contracts are administered by DCMA), and DCMA will issue Contract Deficiency Reports when the clauses are not included.

Questions regarding this memorandum should be directed to Ms. Carol Vigna, at carol.a.vigna.civ@mail.mil or 703-697-4373.

GFP Attachment

PGI 245.103-72 “Government-furnished property attachments to solicitations and awards” directs the use of fillable electronic formats when GFP is anticipated.

The Requisitioned Government Furnished Property format is used to list Government Property that will be authorized for contractor requisition from DoD supply sources in accordance with the clause at FAR 52.251-1.

The Scheduled Government Furnished Property format is used to list Government property to be provided, including when major end items are being provided under a modification or upgrade contract; or when reparable are being provided under a repair, modification, or overhaul contract.

Two versions of the formats, one in Excel and one in fillable PDF are available at:

<http://dodprocurementtoolbox.org/site/detail/id/26>

Additional instructions are available at the above link regarding converting the Excel version into a “readable” PDF.
