SUBJECT: Government Furnished Property Clause Compliance

Accountability and auditability of Government Furnished Property (GFP) cannot be achieved
if contracts do not contain the appropriate contract clauses. Defense Procurement and Acquisition
Policy (DPAP) leads a quarterly GFP Working Group established to strengthen the accountability and
management of GFP. Several policy issuances listed at
http://www.acq.osd.mil/dpap/pdi/gfp/index.html have formalized end-to-end business rules, data
standards, and internal controls. The “GFP Resources” document itemizes training and other
resources for strengthening GFP practices (attached).

To ensure effective implementation of these policies, DPAP reviewed contract clause
compliance. While compliance has improved over the last year there is still room for improvement.
Data for the last three quarters is attached. Evaluation of new contract awards indicates that the
required Federal Acquisition Regulation (FAR) and the Defense Federal Acquisition Regulation
Supplement (DFARS) provisions are not included when required. The FAR clause 52.245-1 is
required in all cost reimbursable and time and material contracts but is included less than 79% of the
time. Similarly, the five DFARS clauses required in all contracts containing 52.245-1 were all
included in less than 39% of new awards during FY14Q3.

DPAP will publish quarterly scorecards on the inclusion of the FAR and DFARS property
clauses in new awards. The Director, Defense Contract Management Agency (DCMA) will include
checks for the required FAR and DFARS property clauses in the Agency’s contract receipt and review
process (to the extent those contracts are administered by DCMA), and DCMA will issue Contract
Deficiency Reports when the clauses are not included.

Questions regarding this memorandum should be directed to Ms. Carol Vigna, at

GFP Attachment

PGI 245.103-72 “Government-furnished property attachments to solicitations and awards” directs the use of fillable electronic formats when GFP is anticipated.

The Requisitioned Government Furnished Property format is used to list Government Property that will be authorized for contractor requisition from DoD supply sources in accordance with the clause at FAR 52.251-1.

The Scheduled Government Furnished Property format is used to list Government property to be provided, including when major end items are being provided under a modification or upgrade contract; or when reparables are being provided under a repair, modification, or overhaul contract.

Two versions of the formats, one in Excel and one in fillable PDF are available at: http://dodprocurementtoolbox.org/site/detail/id/26

Additional instructions are available at the above link regarding converting the Excel version into a “readable” PDF.
