DEPUTY ASSISTANT SECRETARY OF THE AIR FORCE
(CONTRACTING)
DIRECTORS OF THE DEFENSE AGENCIES
DIRECTORS OF THE DOD FIELD ACTIVITIES

SUBJECT: Implementation of Uniform Procurement Identification Procedures

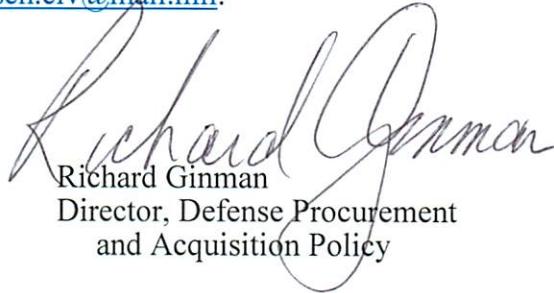

Federal Acquisition Regulation (FAR) Case 2012-023, "Uniform Procurement Identification", was published as a final rule with an effective date of November 13, 2014. With the implementation of this case, the FAR will require specific rules be applied to procurement actions (e.g., contracts, task / delivery orders, solicitations). Many of the rules originated from the existing Defense FAR Supplement (DFARS) 204.71 language; however there are a few differences that require DoD changes to implement, including:

- All task/delivery orders will follow the 13-character format DoD currently uses for orders under civilian agency issued contracts. The current DoD numbering of task/delivery orders using four-character supplementary identifier will end.
- Modifications to task/delivery orders will follow the six-character format DoD currently uses for modifications against contracts (e.g., P00001, A00001) rather than two-characters.
- Some document type identifiers (the ninth position of the procurement identifier) have been reserved for future federalwide use.

A DFARS case is being prepared to (1) address the DoD process changes required and establish a date by which the Department shall implement the required changes imposed by the FAR case; and (2) remove existing duplicative numbering instruction from the DFARS. Until the DFARS is updated to reflect the implementation of the FAR case, do not implement the changes the FAR case imposes. We intend that the Department will follow a common approach for doing so. The planned implementation date is no later than October 1, 2015. The procurement data standards will be updated based on the resulting DFARS changes, if necessary. DoD enterprise procurement-related systems (e.g., Standard Procurement System, Wide Area Workflow), as well as the Federal Procurement Data System, are being updated to incorporate the necessary changes. These system changes are estimated to be completed in Q2/Q3 of FY15.

My office is also coordinating with the DoD Comptroller and the Defense Finance Accounting Service to ensure they are aware of the impending changes.

My point of contact for the specific procurement identifier requirements is Lisa Romney, 703-697-4396, Janice.l.romney.civ@mail.mil. The DFARS case manager for the upcoming case is Dustin Pitsch, 571-372-6090, dustin.n.pitsch.civ@mail.mil.
