Net Contents: 3.38 fl oz (100g)

Read entire label before each use. **FIRST AID** If on skin or clothing: • Take off contaminated clothing • Rinse skin immediately with plenty of water for 15-20 minutes • Call a poison control center and/or doctor for treatment advice **HOT LINE NUMBER:** Have the product container or label with you when calling a poison control center or doctor, or when going for treatment. In case of medical emergencies or health and safety inquiries or in case of fire, leaking or damaged containers, information may be obtained by calling 1-800-222-1222. **PRECAUTIONARY STATEMENTS:** Hazards to Humans & Domestic Animals - **CAUTION.** Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wear long sleeved shirt, long pants, shoes, and socks and chemical resistant gloves (such as barrier laminate, nitrile or neoprene rubber, PVC, or viton). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. **Personal Protective Equipment (PPE):** Applicators must wear the following baseline personal protective equipment (PPE): long sleeved shirt, long pants, shoes, socks, and chemical resistant gloves (such as barrier laminate, nitrile or neoprene rubber, PVC, or Viton). **User Safety Requirements** • Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. • Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. **User Safety Recommendations:** Users should remove clothing/PPE immediately if pesticide gets inside. Wash the outside of gloves before removing. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing. Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. **Physical or Chemical Hazards:** Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. **DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **Use Restrictions:** • Do not apply to occupied aircraft. Apply only to the interior of unoccupied US military aircraft cabin, crew, and cargo areas. • Applications must be performed by United States Department of Defense (DoD) uniformed or civilian personnel who have received proper training in the disinsection procedure by DoD certified pesticide applicators. If no DoD trained uniformed or civilian personnel are available, pest management professionals who have been contracted to perform pest management work on a military installation in the United States and have received this training can also perform the disinsection procedure. • Only protected handlers may be in the area during application. • Do not apply this product in a way that will contact workers or other persons, either directly or through drift. • Do not enter or allow others to enter treated area until sprays have dried. • Do not enter or allow others to enter until vapors, mists, and aerosols have dispersed, and the treated areas have been thoroughly ventilated. **For use in military aircraft:** For control of mosquitoes, house flies, and gnats present in aircraft cabin, crew, and cargo areas of military aircraft. Suitable for use in all types of military aircraft. Application is to be made by aerosol delivery from pressurized cans. Use while the aircraft is on the ground and empty of flight crew or passengers prior to embarkation (pre-flight). Before take-off and after loading of all cargo is complete, close all doors, hatches and ventilation openings. Turn off ventilation system. Apply at a rate of approximately 35 g product per 100 m³ (0.00441 lb. permethrin/can). Spray at arm's length, away from the applicator, starting at the rear of the aircraft and moving forward to the exit. Ensure the spray pattern is not obstructed by any cargo. After application, allow the product to dry for a minimum of 1 hour total, as follows: the aircraft must remain closed for 30 minutes after application; then open aircraft exterior doors, to include cargo doors, and allow the aircraft to ventilate for a minimum of 30 minutes, prior to passengers and crew boarding the aircraft. **STORAGE AND DISPOSAL:** Do not contaminate water, food or feed by storage or disposal. **Storage:** Do not store near heat or open flame. Store in cool dry area, away from children. **Pesticide Disposal:** Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility. **Container Handling:** Non-refillable container. Do not reuse or refill this container. Do Not Puncture or Incinerate! **If Empty:** This container may be recycled in aerosol recycling centers. At present, there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label (DO NOT PUNCTURE!). If recycling option is not available, discard in the trash.
