Why Conduct a VAM?

- 2002 - OMB requested review of federal fleets - Key recommendation to create and implement VAM
- 2005 - GSA releases FMR Bulletin #9 (superseded by B-30)
- 2009 - 41 CFR Part 102-34.50 (b)
  - Agencies must establish and document a structured vehicle allocation methodology to determine the appropriate size and number of motor vehicles (see FMR Bulletin B-30)
- May 24, 2011 - White House issues Presidential Memo
- Aug. 22, 2011 - GSA Bulletin B-30 & VAM Reporting Tool
Bulletin B-30 provides guidance to Executive Branch agencies on conducting an annual VAM to determine the optimal fleet inventory to meet the agency’s mission requirements and identify resources necessary to operate those fleets effectively and efficiently.

Outcomes:
- Annual completion of Agency VAM
- Annual reporting of VAM Results (Reporting Tool)
- Annual Fleet Management Plan (FMP) for submission to GSA and OMB

Agency VAM and Fleet Management Plan due NLT February 17

OMB likely to provide Agency fleet funding based on successful completion of VAM and FMP
Criteria

• Utilization
  - Number of trips, hours used, and/or miles traveled

• Criticality
  - Assessment of vehicle importance to mission regardless of utilization level

• Vehicle Justification
  - Your justification process should use utilization, criticality, and survey responses to make recommendations for vehicle actions such as:
    • Eliminate (high potential for removal)
    • Questionable (some potential for removal)
    • Retain
VAM Process Basics

• The VAM consists of 3 basic components:
  1) Collection & analysis of inventory
  2) Data call (questionnaire/survey) of vehicle users
  3) Responses that help you to recommend:
     • Vehicle retention/elimination
     • Vehicle type
     • Potential for use of alternative fuels
